ALISON JANE HOW & CO ORIGINALS MUSIC TIMELINE to 2026 08 15 by & © AJ How**

**This document's contents have been kept as simple as possible as a collection of
facts about the originals music creation and development of Alison Jane How & Co.
As some notes have been copied from Alison's diaries' notes there are some word
abbreviations listed in the document, most explained.**

**Some details have been left out in consideration for people's privacy.
There are some spelling errors on file titles from computer records; unchanged here.**

**There probably is more information to come after this document's publishing;
however, this is a good summary from circa 1983 to 2026.**

**It was not possible to create this document in chronological order in it's entirety
as topic headers and those involved with the music meant separating some sections.**

**The originals music in audio, video and digital sheet music formats and more,
has been published and is available to listen to, view and purchase
via the Musical Rise website as digital products at present.**

The Memorabilia files on the Musical Rise website may also be of interest to you.

dates of composition, recordings, rehearsals/jam sessions, songwriting sessions info,
workings in general, promo, preparation, gigs/performances, website creations,
publishing and more, including personal notes about the songs.**

I have also included information about the co-writers, engineers, producers etc.

**I have noted names of people and organizations contacted regarding promotion
of or moving the songs but have not included any customers details.**

Thank you if you purchased any of the originals' music products or will do so.

**I have supplied this document as text on a clear background.
Therefore, if desired, viewers can edit the colour of the background of the document
(in PDF readers) for reading purposes.**

The document is in portrait format. (A4 size pages)

**As I, Alison, wrote this document I have referred to myself as 'I', 'myself' and 'Alison'
throughout the document (being my own manager etc).**

.... A note from Alison

I have had an interest and natural flair regarding music all my life and been able to learn, create and appreciate an amazing world within that musical journey. Thank you to everyone involved in assisting, encouraging, supporting and inspiring me throughout this musical journey and also to my colleagues. I trust that I have honoured your hopes for my own music creation's development etc.

I have also been privileged to have worked with and co composed, recorded etc songs with other vocalists, musicians and songwriters, many of whom are professional, established engineers, producers and artists.

I have always enjoyed making music, writing songs and so on and have been able to be a part of encouraging others to do so throughout the years, as a teacher of music for decades and around musos/vocalists and writers. Most of the writing I did 'just for the fun of it', but I always seemed to delve into something (lyrics and music) worthy of continued appreciation by myself and others; thus the decision to make it available on a larger scale. It is a part of me and I am a part of it and I have been blessed to experience a real connection with others each time that I have performed the music, their appreciation for the music and myself having been made known to me. More of the same ahead hopefully.

Some of the information included within the song titles herewith I had published on the Musical Rise website along with Product Pages and more.

I have provided headers/titles at the top of each section of this document. The INDEX on page 3 of this document refers to these topics.

BURNING FIRE (David E. Carr - additions lyrics AJ How) Originally handwritten by Al on note paper titled 'A short note from Alison' (in print) 1992 12 27 - Vocal melody notated by AJ How handwritten on manuscript paper. 1992 12 27 - Lyrics re-write by AJ How Wrote these for music backing that David Carr had composed. We worked on this together as I recall from previously composed and recorded music Dave had composed. I have the backing and me singing over the backing on cassette tape in 1992. I was recording with a mutual friend's 4 track Tascam 244 machine at the time so this may have been used during the process. I think I partly wrote the vocal melody. David has heard the track again in 2022 and has hazy memories of what occurred back then in 1992.	1992 12 27

FEAR (AJ How) EARLY WRITINGS 1992 APRIL 12th Sunday evening wrote song in car (Blackburn North Baptist Church carpark) think it was the melody and bass line that became the riff for 'FEAR'; if it was, I notated a bass line on paper and a right hand melody. This became the main riff for the instrumental backing for the chorus. I was trying to write in an Atonal style. HIGH PLACES (AJ How) Composed by Alison, August 1st 1988 after she read Hannah Hurnard's book 'Hinds' Feet On High Places'. Recorded with others in 1989. Re-recorded January 31st 1991 at TLC Studio (Bayswater) with Andy Sorenson's expertise at the desk and controls. Ric Wong's guitar lead break here is ultra smooth. Alison's vocals were recorded at Andy's studio. That night, as Alison entered the property, she was greeted by 2 big eyes staring at her in the dark. When Andy turned the light on she was surprised to see a cow. As she hit the high note in the middle section ('...let nothing set you apart'), a rooster 'cock-a-doodle doo'd'. The vocal take was quite special, hence kept. Incidentally, Andy had read the book around the same time and written a song also inspired by it.	1988 08 01 1989 1991 01 31

I'M NOT ALONE/EVERYWHERE I GO (AJ How) 1988 02 26 - composed by AJ How Was titled 'Everywhere I Go' on a chart dated 26 02 1988 but for performances became 'I'm Not Alone' as the end of the chorus lyrics are 'I'm not alone'. The start of the chorus is 'Everywhere I Go'. For a 1990 recording reference in a diary I referenced the song as title 'Everywhere I Go'. The night of the songwriting I have referenced the song as 'I'm Not Alone' but the typed lyrics chart with that date says 'Everywhere I Go'...	1988 02 26

LOVIN' THIS MOMENT IN TIME (AJ How) AJ & THE SQUEALERS VERSION C Major Composed by Alison in QLD 23rd November 2010 Initial recording 2010 by Alison. The recording, (published to the Musical Rise website), 2017 pitch shift and additional elements. Alison was singing but she engineered the track with a pitch shift feature which took the vocals up in pitch from the original recording so that she would sound like 'The Squealers' should sound. The backing played by Alison on a Panasonic Technics SX KN5000 keyboard; including an accompaniment riff. The song has been recorded by Alison in E A and C Major. This published version was in C Major; a rough recording.	2010 11 23 2017

MOVE ON (AJ How initial/GWB Howard/DEEP contribs) Composed by Alison initially in 1991. Recorded by Alison then with David Edwin Carr (Guitar, Engineering, Production) and Ben Hollard (Drum Sequencing). Ben suggested alternative section ordering/formatting; hence this version, (published to the Musical Rise website), differing from the latter DEEP version. Andy Sorenson assisted with Engineering/Production. Steve Smith (a muso friend) kindly loaned Ali his Sound Modules which he'd labelled 'Larry, Curly & Mo'. The 2nd audio recording version, (published to the Musical Rise website), DEEP with musical variations.	1991

NEVER GET OVER IT (AJ How) Composed by Alison in Melbourne 1999 04 19 1999 04 30 1999 05 01 to 1999 05 04 1999 05 22 1999 05 25 1999 05 26 1999 05 01 was titled 'Don't Get Over It' at this stage. Songwriting recordings to cassette tapes. Initial recording 1999 by Alison, published to the Musical Rise website later. Alison recorded this song with her lead vocal and her accompaniment direct to a cassette tape and then sang harmonies over the top of the lead vocal and backing onto another tape, 2 tape decks running simultaneously. This process often sped up the tape and hence the key may be sharper than concert pitch. Those were the days.	1999 04 19 1999 04 30 1999 05 01 1999 05 02 1999 05 03 1999 05 04 1999 05 22 1999 05 25 1999 05 26

RETRIBUTION (AJ How/music part loop riff) RETRIBUTION LEADS TO HELL (AJ How) 2010 01 21 Thursday 11am, 2010 01 22, 2010 01 23 Alison wrote the lyrics January 21st to 23rd 2010. Was originally titled 'Retribution Leads to Hell'.	2010 01 21 2010 01 22 2010 01 23
RETRIBUTION (AJ How/music part loop riff) Composed by Alison January 21st 2010. This song commenced composition by Alison in conjunction with Magix Audio Loops as a fun experiment, however Alison liked it and thought it should be out there... contacted Magix in 2006 about using the audio Loops in songs and was told over the phone to make a note/mention of Magix with recording/releases information Alison contacted Magix since 2006, was asked to email the details of the audio loops used and in what songs ... did so and someone replied that the loops were not theirs. I notice that the company had been purchased by another somewhere along the line. Basically, the Chorus vocal melody riff is the bass riff of a Magix Universal Groove Audio Loop. Magix replied at one stage that they can't find record of the audio loops, noted to them in writing by Alison, as being theirs.	2010 01 21 to 2010 01 23 2010 01 22

THANK YOU YOUR MAJESTY (AJ How) A Tribute to Her Majesty Queen Elizabeth II. Composed by Alison August 9th 2010. Recorded by Alison in 2010, 2016. Thank you to Alison's Aunt Margaret who let Alison know that you can write to The Queen. The song accompanied by a letter was posted to Her Majesty, Queen Elizabeth II in 2010, Alison gratefully receiving a reply letter from Her Majesty's Lady-in-Waiting thanking her from The Queen. Alison had hoped that Choirs, Orchestras and the like would perform this song for the Queen and has contacted many appropriate organizations and individuals about this hope and would have been delighted to hear from anyone who might have been interested in such an event. Alison phoned and wrote to Her Majesty's staff in 2018, as a courtesy, to request permission to release the song in formats audio, video and sheet music as retail items; the reply has led to Alison's decision, with respect to Her Majesty, to release the song. This song, in September 2022, is now an everlasting tribute to Her Majesty Queen Elizabeth II	2010 08 09

<u>HYMNS OF PRAYER PRAISE WORSHIP IN LOVE</u> Lyrics - DO Dyall Music - AJ How A PRAYER OF TRUST JOY KNOWING CHRIST MY PRAYER OUR WONDERFUL COUNSELLOR OUR WONDERFUL LORD JESUS PEACE WORSHIP Lyrics by Dorothy Olive Dyall. Whilst Alison was performing for residents at the Peninsula Palms Retirement Facility in Rothwell, Queensland, Australia, the residing Diversional Therapist asked her to put music to one of the resident's words/poems as Hymns. Dorothy has since passed away but heard the music with her writing prior to then. I visited Dorothy on several occasions. Her family have received these Hymns also. Recorded by Alison in 2008 with some vocals re recorded by Alison later. 2008 05 04 - songs were performed so the music for them was composed by me prior to that but during that year. Backings all recorded to floppy disks. I have not been told when Dorothy wrote the words. I was given pieces of paper with them written on them in hand writing but had been photocopied. I recorded the songs in full in 2008 and edited them later to publish to the Musical Rise website. The digital sheet music was also published.	2008

CO-WRITERS WITH ALISON JANE HOW AND HOW ALISON MET THEM

I co-wrote a song with a friend in the early 80s but she doesn't want for me to mention the song so it is not included here. I still have the handwritten notation of our song that I charted at the time whilst sitting at the piano composing the music and contributing to the words she had brought to our jam session.

My family had a white Farfisa Furstein upright piano at the time that Dad and Mum purchased from Brashs/Allans where Dad was a Marketing Manager.
That was the piano where my friend and I worked on what I see as my first co-writing venture.

I lived down the road from this friend in a small court.
She introduced me to ACDC and Meatloaf and more things of interest. We had a blast.
My sister had lessons and played that piano prior to my main time playing on it.
I learned and played organ prior to that.

...Co-writers with Alison Jane How and how Alison met them... (continued)

How Alison met Jean Sietzema-Dickson

We were introduced to each other in 1987 by a mutual friend who was the mother of another friend, musician, I met at Blackburn North Baptist Church.

The friend's mother invited me to her home and then to meet Jean, knowing that Jean wrote poetry and that I enjoyed writing and making music.

How Alison met Joyce Elizabeth Wiseman-How

Joy is my Mum and she wrote a poem, song, called 'MARY's SONG'.

I composed music for this song and I did perform it when she spoke at an event.

Unfortunately there seems to be no record on cassette or in handwriting of the music.

I do however have a copy of Mum's 'lyrics' that I typed at the time.

Hopefully an audio copy can be found in the future.

How Alison met Kali Stavropoulos

I met Kaliopi (Bobby Maree Stavropoulos) through another music colleague who was a bass player in a covers concept band 'Billy Boy' (Billy Idol music); I was doing backing vocals in the band that I had auditioned for around 1991.

We commenced doing performances/recordings, covers and originals music end 1993.

The co-written original song, 'Chase Anton', is included in this document.

How Alison met Glenn William Beckingham Howard

I met Glenn in 1996 through his Pop, Bill Howard. Bill had purchased musical instruments, particular organs and keyboards from my Dad's music store over the years.

I was assigned to demonstrating a keyboard to Bill and from then we became good associates and I would add 'friends'.

Bill asked me to write a critique regarding his other grandson's keyboard playing, that grandson was Blair Joscelyne (MOOG) ~ Composer, Songwriter, Producer.

(Might Car Mods and many other fascinating and talented ventures, including advertising & film; songwriting, engineering and production etc).

After I wrote that critique I was handed a tape with Glenn's guitar playing...

I was instantly in awe of his ability and style of playing, thinking that he was interested in a lot of the bands, guitarists, songwriters etc that I was very much inspired by.

We met and jammed and started writing songs and recording together, then gigs.

That became DEEP.

Glenn was very respectful from the start of meeting and had great passion for music making.

Diary note on Thursday 4th July 1996 says 10-3 Glenn Howard, this document 26 years after that which may have been our initial meeting and working on music together.

...Co-writers with Alison Jane How and how Alison met them... (continued)

How Alison met Peter Mollica

I met Peter Mollica via his brother Joe who was the guitarist, vocalist, manager of corporate music trio 'Paris By Nite'.

I was filling in for the resident lead vocalist of the trio for a while, Franka Cotso, as she was on her honeymoon.

Joe knew I was working on originals and who with, that we were looking for a drummer and bass player and mentioned that his brother, Peter, was an excellent bass guitarist.

I contacted Pete and there was no looking back or around for another bass player.

Pete has been an honourable, respectful person to work with.

How Alison met Nick Coppin

I met Nick through a friend at Church.

Nick showed great promise as a musician and we were fortunate and grateful that he could work with us for a few gigs and recording an album.

I sought drum sponsorship for him (Drumtek - Frank Corniola) in 1998 and Frank kindly gave him 'B' grade sponsorship (Premier); an honour.

I contributed financially to a new drum set up for Nick believing in his abilities.

How Alison met Steve Glase

I met Steve through a friend whom I have composed a song for (Wedding).

I heard his drumming and liked his attitude towards music making and he showed me respect and interest in the music, being a songwriter himself.

I assisted Steve with his song 'HOME' by placing chords under his vocal lyrics and melody. I also assisted with another of his songs.

He had played, sung a few of his other originals to me that I recorded for him also. This songs' recordings have not been released that I have a rough band recording of.

How Alison met Aaron Misiurka

I met Aaron whilst filling in as a vocalist for Andrew Hosking & Coupe de Ville; Glenn was playing guitar with them at the time and Peter Mollica had played bass with Andrew also. Aaron was playing keys etc with them. I replaced him whilst he was overseas (as the keyboard player for a few gigs), myself having been sharing lead vocals and harmonies with Andrew on stage for gigs during my involvement with the band's performances 2002.

We worked on Steve's songs, some of mine (jamming, recording sessions) and co-wrote the song 'Dancing to the Rhythm'; this recording with my vocals and lyrics, part melody not yet released.

...Co-writers, how Alison met them and recording teams... (continued)

How Alison met Danny Lopez

I met Danny in 2007 whilst searching online for musicians to work with on my originals towards performances and maybe to co-write with etc.

Danny also showed me respect, was - and still is an accomplished musician, vocalist, songwriter, engineer and music instructor.

Danny and I composed 'Confess Your Love' (alt title ~ Confess Your Love For Me)
I published our rough songwriting recording of this song to the Musical Rise website.

How Alison met Dorothy Olive Dyll

I met Dorothy in 2008 at Peninsula Palms Retirement Facility, Rothwell, Qld, myself playing piano and singing for the residents whilst assisting the Diversional Therapist of the Facility.

This Diversional Therapist happened to be an experienced talented Gospel singer/guitarist/keyboardist/songwriter etc (Rose Alexander).

Dorothy was a resident of the home. Rose handed me sheets of Dorothy's poetry, hymn writing, herself having been asked to write music to them, she requested that I do so, Dorothy had approved and later Dorothy heard the songs and was given a CD of the recordings. Since then I updated the recordings of the songs/hymns, completed sheet music versions for them and published them via the Musical Rise Website.

I later, after Dorothy passed, met Dorothy's brother and still communicate with family.

MUSICIANS/VOCALISTS GUESTS ON ORIGINALS RECORDINGS

How Alison met Ric Wong

I met Ric in 1986 through friends at Church, Blackburn North Baptist Church.

I also met his wife-to-be the same way.

Ric and I performed together on various occasions prior to and after the recording of a few songs in the late 80s, 'High Places' and 'The Lord's Supper' which Ric played lead guitar on.

Ric continues to play music these days and is a Doctor. He was studying when we met.

How Alison met Benjamin Hollard

I met Ben at Blackburn North Baptist Church.

He performed and created music with other musicians, vocalists, songwriters there and we performed on a number of occasions and assisted each other with our music ventures. He is now a songwriter, engineer and producer in Melbourne.

Ben also made a wooden cassette tape brief case for me to keep my originals cassettes in; they are stored in there to this day under my working desk (2022).

...Co-writers, how Alison met them and recording teams... (continued)

How Alison met Andy Sorenson

I met Andy during the late 80s through Church circle friends and we recorded and jammed some music together and Andy assisted me with engineering, production and sang, played on tracks I was working on, being very supportive and encouraging whilst bringing much professionalism and passion for music and love for God to the music making ventures.

How Alison met David Carr

I met David via friends and saw him play at his covers gigs.
He was in a band called JANZ at the time and other bands playing round town and in country venues also.
I attended the gigs and got to know David (Dave, Davros) a bit more and asked him to be involved in some of the music ventures I was involved with, including originals' recordings and performances.
He is an awesome muso and was fun to be around during processes and is very creative.
He now owns and runs his engineering, production recording studio in Melbourne, Rangemaster (rangemaster.com)
Andy and him have teamed up on occasions, one of which was for the recording in the early 90s of my song 'Move On'.
They have both travelled and work with/interact with others overseas as well.

How Alison met Greg Kitchen

I met Greg around 1993 at Christian City Church, Melbourne, Camberwell High School venue at the time.
I had been working on a song called 'Place in Time' and asked Greg if we might jam and record that song. He played the lead break, guitar riffs that I composed and made them sound exactly how I had hoped they would sound.
We recorded a rough draft of this song which has also been included, published via the Musical Rise website.

DEEP/AL AND GLENN ~ JAM SESSIONS/REHEARSALS

Regarding Glenn and Al rehearsals.

We rehearsed many Wednesday nights at Al's studio room and sometimes at Glenn's residence.

We met around 8pm and worked many nights passed midnight until Glenn got a work position that required him to be up early the next day; also he had been studying throughout the time we were jamming originals.

I was teaching later in the days into late evenings on the weekdays and on weekends day time and gigging some nights into the morning.

AL GLENN DEEP REHEARSALS SESSIONS

1996

* spelling Glenn's name as Glen in the 1886 diary over and over again. 😊

It's GleNN

(To be fair, guitarists are holding their guitars so I didn't see him write his name down anywhere)

I think he text me 'G' also at end texts.

JULY 1996

September 11th ~ was an awful day for many with a major event.
I had been watching the horror unfold in front of me at the end of the day, night time in Australia.

As the news and events were revealed I saw Mr Howard Lutnick
on one of the TV programs; a man who had lost so much that day and was trying
to comfort his staff and families etc whilst suffering his own massive grief.

During that broadcast a postal address was provided for communication
with Mr Lutnick etc. DEEP had recorded 18 songs;

2 of which were 'Fighter' and 'Unsung Heroes'.

Consulting with the musicians who recorded those songs, it was agreed that it would be
okay for me to post Mr Lutnick, along with a card from all of us, the 2 songs on a CD.
My hope, coupled with prayers, was that this would encourage him and anyone who
listened to the songs at an appropriate time down the track.

I wanted to do something but was unable to send a monetary gift.

Not long after I posted the CD and the card I was beyond overwhelmed to receive
a letter in response from and signed by Mr Lutnick himself.

The message he included in that letter was awe inspiring, encouraging and personal.

Thank you Mr Lutnick and staff.

We hope sometime the songs did/do encourage and uplift you.

1992 09 ~

Mum, Joyce Elizabeth Wiseman How, wrote words/lyrics titled 'Mary's Song' - I believe, though
we do not have an audio copy of this, that I composed music to go along with Mum's words.

It was performed by me on an occasion she spoke at a Ladies' Church evening event.

Still looking for more evidence of this.

The typed chart kept from then by me that was typed on Mum's typewriter says

Music Alison How Words Joy How

There are 3 sections of words on the chart.

Originals Line Up - Search For New Line-Up To Work On My Songs & Co-Writes

AJ HOW & DANNY LOPEZ ORIGINALS CO-WRITE

Alison & Danny met in 2007 whilst Alison was searching for musos to work on/record her originals.

Danny was working with some of the musicians Alison met whilst searching online, the Internet.

Danny & Alison co wrote 'Confess Your Love For Me' in February 2007,
developing & recording the song during the following months.

Alison had composed a song called 'Mr Right For Me' in January 2007.

Part of this song's melody, chords and lyrics were used in the co-write
of the song 'Confess Your Love For Me'.

Alison used some lyrics, melodies and chords from her song "Mr Right For Me"
with Danny making extra suggestions; extra musical elements co-written by both.

Since 2007 Alison & Danny have continued communicating throughout the years.

Both are musicians, vocalists, songwriters and music instructors.

AJ HOW ORIGINAL~Love You~ BNBC SIDE B of ANGELS REJOICE -SORENSEN

AJ HOW ORIGINAL~Love You~ BNBC SIDE B

piano ballad playing... Al...singing along with playing... writing song...
no talking before or after session.

Might have been the late 80s, this one handwritten on label tape as Andy's

(Andy Sorenson) original composition, song called 'Angels Rejoice'

was performed around then, me privileged to see him working on the song in person.

The song is not on the cassette tape but I believe one of my cassette tapes

has harmonies for his song with me singing, perhaps for a performance or a recording back then.

Will search again for it. Heaps of tapes.

AJ HOW ORIGINALS UNMIXED HIGH PLACES ETC TDK SA90

HIGH PLACES (Al's original - arrangement input by Andy Sorenson and singing,
playing on the recording)

unmixed version...

TOTAL CONTROL (Al original) ~ according to the lyrics chart the song was composed in 1991.

Alison (me) singing and playing my original song - written pre recording this version...

only singing and playing one sound right and left hand on keyboard...

80s pop style sounding number.... a cappella section Chorus repeat....

Alison, me, speaking recorded onto the tape.

"Total Control take 7, Total Control take 8"

A different sound on the keys and a click track going....

"Total Control take 10, final take"

"Total Control take 11, final take"

"Total Control take 12"

"the power's off"

"Total Control take 15"

AJ HOW ORIGINALS - COVERS MUCKING AROUND SIDE B

EVERYWHERE I GO/I'M NOT ALONE (1988 02 26 - composed)

Al's song

Pop rock....

Andy Sorenson and myself and backing vocalists and musicians performed
this one at a church in the 80s - have VHS tape of the event and this song.

TDK D90 AL'S ORIGINALS GENERAL MUCK AROUND TOTAL CONTROL SIDE A

this tape is hilarious... I made up a tape for a friend to listen to whilst she was flying to London England in 1991 (4th January) ...

it's a horror shocker with weird sounds and effects... I intro it with my speech to her with her name on the start of the proceedings... very dramatic.... she might have needed a sedative for this one.... interesting composition work from AL..., not originals music as such.

DON'T GIVE UP

AJ How Original Don't Give Up 17 1 89 BNBC tape

(BNBC was Blackburn North Baptist Church - I had some short length tapes from preparation for Church group rehearsals' material (learning etc) They were usually overdubbed.

Boppy original AJ How - pop number - vocal and piano.. Al songwriting, jamming alone.

Al shouts out "...2, 3, 4!!" and hammers into the piano keys ... then the metronome ticks away ... "1, 2, 3, 4!!" bash bash big chords on the piano....

Humming some stuff and shouting counting.... the shouted counting gets higher pitched upon repeated commencement efforts... hilarious... by the end of the writing session mostly playing piano and whispering the lead-count in.... speaking tone...

with a 'character' type tone...

"Oh phhh" (loud frustration) "...1, 2, 3, 4" (quiet whisper)

... at one stage at lack of ability to play precisely.

Think I should have called this song "Give it up" by the end of the frustrated piano bashing efforts... Good idea though to follow through with one day.

ORIGINALS AJ HOW 1992 FUJI DRI 46
ORIGINALS AJ HOW 1992 FUJI DRI 46 SIDE A

Al playing a bright chirpy twack bass kind of riff but in the right hand... with an electronic metronome beat ticking away...

Playing on the keys 80s type of string sounds etc.... is a bit 80s soundtrack like stuff.... composing... getting a chordal stability for a verse started having played what was probably a chorus backing....

ends with the riff started with and the electronic metronome sound

tape stops starts

Al playing drum beat going on keys with 80s kind of string sounds and bass going making up another song.... happy ish song....pop rock

tape stops starts

two clicks in and Al is playing MEMORY LANE instrumental backing... may be a sequence that I worked on the keys and is recording onto a cassette to work on the lyrics etc away from the keys which I did often....

TRIPPIN'

Al working on the instrumental backing for her song TRIPPIN'
is early stages of this by the sound of it....

tape stops starts

Al playing acoustic piano; a ballad only instrumental

then that stops and she is playing

FEAR

A drum beat and strings..... playing slightly different inversions of the patterns so it may be early stages.... fast and quite proficient playing at this stage here though, so developed the riffs by now...

tape stops starts

Ballad on piano... Al composing minor ballad

tape stops starts

Drums keys, Al making up a pop rock song, no vocal here

Al playing keys, a more dramatic piece with a drum beat going.... keys.... Soundtrack like..... or big anthem for show....

ORIGINALS AJ HOW 1992 FUJI DRI 46 SIDE B

Al playing dramatic strings on keys.... sounds like for a dramatic part of a show...

then the big strings synth sounds... with sprightly chords right hand...

Steady bass in left hand string sound but gets busier....

Al playing another composition.... soundtrack like with organs in as well...making it up

...ORIGINALS RECORDINGS INFORMATION ~ CASSETTES... (continued)

ORIGINALS AJ HOW 1992 FUJI DRI 46 SIDE B continued

Al playing another composition... making it up... right hand vocal riff on strings.... maybe and steady constant left hand bass as strings... American Indian kind of style.... this became a song.... **KISS OF DEATH** I think...

Al making up a pop song... no drums.... but chords and bass line left hand driving.... typical 80s song chord structure could be a pop rock number if followed through on it. I start singing Oh OH OH Na etc.... trying to make up a vocal melody but the tape stops and the recording off....

'**TRIPPIN**' '... Al's song.... backing only here on start this tape... drums and twacky synth sounds bass.... keys playing....

Another originals writing session.... Al..... drums and synth sounds.... untitled....

Another originals instrumental writing session for lyrics vocals later is **BRAINWASHED** Al's song - drums and keys backing...

Another originals writing session.... Al.... keyboards strong strings sounds.... soundtrack type Strong bass repetition.

Another originals writing session.... Al.... instrumental

Another originals writing session.... Al.... instrumental - aah keyboard pads

Piano ballad writing original...Al... singing la oh oh oh.... whilst playing piano... Vocal panflute-like... (mid tape) stops tape... starts again.... playing piano acoustic...

Another piano ballad writing with oh oh ah... etc singing over top of playing....

Still playing around with ideas.... octaves and arpeggios across wide pitch range of piano... Short excerpt but could use for later...

Next is synth keys sound practising or writing Al's song **PLAYING WITH LIFE** which started out as title **U MUST DIE**....

This here is instrumental so maybe I hadn't written a vocal melody or lyrics at this point, but the instrumental is quite advanced in it's length and direction... format....

At end stuff up playing and slide fingers backs up and down keys.....

1992 05 08

"8th of the 5th '92 after WIZARDS gig ... morning." (others' covers band)

Writing a soundtrack like instrumental portion....(Al keys dramatic)

Next is my original ... as instrumental.... commencement of working on a song I think... although it is a mixture of the previous effort....

Drum pattern on keyboard and playing synth strings over top....

...ORIGINALS RECORDINGS INFORMATION ~ CASSETTES... (continued)

Another songwriting effort... Al.... Drums - twacky keys basslike sounds....
Interesting direction.... look into later....

UNDYING PASSION - working on... piano strings on keys... light tines piano...
Instrumental and vocal this time... vocal mic'd up. It's not the full song so early stages I think.

Another original writing effort.... pop number... Al
Experimenting.

Piano acoustic ballad... instrumental only.... end tape side A

David Carr and Benjamin Hollard recorded it with me....
No vocal on this recording...

My original.....Instrumental..... **NO END**... early workings... instrumental only....

Another originals instrumental effort Al.... big synth riffs sounds like one earlier on side A
huge scream..... WAHHHHH at the end from my voice..... high.....

Another instrumental effort here.... drum pattern and synth patterns with it....

1992 04 05

"5th of the 4th '92"

This is the start of **YOU MAKE ME LAUGH**.... my original... written about a friend.
Drum pattern with keys playing... part of the song with funny keys mucking around sounds at end...

UNDYING PASSION... strings entry... working on this one again.... drums part way through...
not whole song as completed to date...

Another songwriting effort... Al... not sure what this is... drums, synth sounds..... patterns...
some sort of format according to verse chorus etc though..... pop...

FEAR.... working on the instrumental... Al... drum pattern and synth... it's very fast I'm playing...
only partial backing....

CAN'T MAKE YOU WANT ME.... Al's song... playing with the keys guitar like flanged sound....
and singing along... lyrics and vocal melody as is.... so advanced in the songwriting stage....
May have been called **BESIDE YOU** back then....

Another songwriting effort... I think this is the instrumental backing for KISS OF DEATH...
Al playing keys... almost soundtrack American Indian type of sound....

Another original with an electronic metronome backing.... pop number....

...ORIGINALS RECORDINGS INFORMATION ~ CASSETTES... (continued)

Instrumental backing for song **TENDER HEART**.... with vocal mic'd up....
Was written after a gig.... a friend was crying due to a serious, upsetting incident
that occurred that night at the gig..... This chorus riff I later used for **BEAUTY WITHIN**;
the lyrics and melody the same for the choruses of both songs....
the verses and the content overall are different.....
This version recorded here of Tender Heart is full.... Drum pattern on keys, me playing aah
sound with a swirly keys sound.... I speak over the middle section too....

AL'S ORIGINALS~tdk tape SIDE B

this cassette tape is probably Al's instrumental workings of quite a few songs in 1992....
there are quite a few on this side of the tape and some that haven't been developed
to date..... no vocals on this side of the tape...

some lyric line variations than the final one. Actually some better stuff here than ended up with.

1992 **TENDER HEART**

1992 TENDER HEART ~ AJ How originals TDK AD60 side B

beginning workings, worked for quite a while on this recording

on this tape side B, got speakover section on it also

over instrumental which enhances the emotion;

ended up using this chorus melody and chords

for **BEAUTY WITHIN** later on July 2009.

Used the words of my song 'Beauty Within' in the chorus of my song 'Tender Heart'.

This recording sounds rough but I suspect I wrote it after midnight as I got home

late after going to see others' gigs at the time and often was inspired to write

songs after experiences with friends etc and great music nights.

The next instrumental on this tape, side B, sounds rich, deep, ethereal.

I was using a Kawai pop synth module also at the time so the sounds are wide pad, airy and striking synth sounds on some of the recordings.

On here, side B, is the commencement of the song '**TIME**'

"20th of the 5th"

I NEED YOU

Piano accompaniment workings vocals micd up.

Early vocal as lyrics are a bit different and the vocal melody is also different, my initial songwriting efforts have more emotion in them and seem settled for the ballad's writing... I like where the song landed but this is a different approach

this version. Lower pitched Chorus vocal melodic riff also;

then I go up in pitch quite a bit in the chorus.... it's worth doing this version mix

in the future, live (performance), some of the melody sounds like a harmony as compared with the main melody that I landed with later in time.

This piano part I'm playing live sounds like a Bach polyphonic sonata

in the instrumental section played here.... moreso than the final version I recorded in later years.

I sing the song again... several takes....

"21st of the 5th '92 after listening to John Farnham"

the backing I play after that that I'm writing is nothing like Farnham's music I've been listening to...

Eastern Arabic kind of style actually...

A drum loop backing with my playing synth sounds chords over it.

ORIGINALS IN 1 1993 KN2000 SIDE A

Al playing keys... a lead kind of sound playing melody in right hand and much other soundtrack like keys under it.... must have recorded it as a sequence and overdubbed multi tracks on the keyboard... is very busy.... 80s movie kind of soundtrack approach.... pianos guitar etc ... a tick tock clock sound effect... may have used the DD3 pedal for digital delay on a piano here for a driving constant beat effect...

Al creating an Indian song here with the Indian backing on the keys composing stuff over it Indian Arabic mix I think....

next up

A piano ballad... Al composing...

after a while added the drum loop on the keys.... playing the piano sounds on the keys.

Started again with the drums and playing something more logical in relation to the chordal playing and structure....

then another working... aah sounds on keys... Al composing a song... experimenting...

Aah sounds with a bass line....

then a ballad with a drum beat on the keys, playing a bass line and there's a flute in there too so I must have sequenced this..... it's BEAUTY WITHIN....

was called TENDER HEART back then when I first wrote it... so this could be 1992.

The chorus riff is very much there as a piano harpsichord type sound with other things going on around it....

now I'm making up another piece.... a dramatic organ number.... pop rhythms.... piano and organ sounds merged

now I'm making up a song with a funky bass and drums... but right hand is playing FEAR riff.... so I'm experimenting with different backing with that riff or just decided to play that riff in the right hand.

...ORIGINALS RECORDINGS INFORMATION ~ CASSETTES... (continued)

BESIDE YOU CAN'T MAKE YOU WANT ME

Al playing her song through on the keys with a piano and aah tone..

Bass line in left hand on keyboard...

This is only instrumental but is the format of the song basically....

Pop song Al composing here... with keys backing loop playing over it..... tines tone.

Another ballad working on, no drums on keys... strings etc making something dramatic up;
short lived....

Another song... strings deep aah

sounds like 'THE LORD'S SUPPER' ... it is....

- then dramatic soundtrack anthem prelude composing again...

continued from previous idea on this tape.. big pumping drums....

Al composing.... a piano electronic sound with strings.. etc..

stops after while and tries again to continue

Another composing effort.... dramatic with drums.... strings... etc on keys

Another composing effort.... strings...

Another composing effort.... strings... and drums on keys this time... different piece.

Minor chords and chromaticisms...

Another composing effort.... string harpsichord type sound right hand, with drums on keys...

I recognise this riff at the chorus area but not sure if I wrote lyrics and a vocal melody over
it..... trying to compose clear verse and chorus sections... but playing continuously..

Another song... Al composing... draws on the heartstrings....

nice chordal movement and bass....

- Next one Al working on has a flute over the piano workings.....

this one is what became **ROSE AVENUE** I was driving up a road, Warrigal Rd, in Melbourne
and saw on my left a street named ROSE AVENUE and I thought "what a great name for a song".
I often travelled up that road to go to church and visit friends or to teach music students....

Next one I'm composing has a drum beat, electronic, quiet and I'm playing piano strings over it.

Trying to make up a riff... I stop....

Next one is aah soundtrack like tones.... long chords... held.....

Next one is drum beat, pop like and I'm playing a riff in the right hand but I stop

- Next one is poppy little number.... playing a loop on the keys and making up a right hand melody
with it.... as piano sound

Ballad with light drums on keys working on now... sounds like the right hand is a mid piano sound
or a guitar sound I often used to play piano style....

Playing a piano aah string ballad now with a clickity clackity smooth drum beat under it from the
keyboard...

- Now I'm playing a driving beat original song on the keys **NOTHIN' CAN TAKE ME**....

It's only instrumental here.....

Side B

Also a song included on this tape David Carr had composed and recorded instrumental for too and I think we worked on lyrics and a melody together... I have multiple lyrics handwritten charts with my name written as the copyright and I also have the vocal melody notated by myself onto manuscript paper (re write lyrics dated 1992 12 27) ... we had fun working on this song.. song was called 'Burning Fire'... David's title. We worked on it at David's residence at the time. I met David through friends. David, in 2022, has hazy memories of the workings in 1992 with Al. Another instrumental on this tape I composed, no lyrics or melody yet although the accompaniment suggests a focal melodic riff. (heavier song), Piano ballad on here (mine) backing only and a majestic instrumental riff.

Next up is a ballad with piano strings and drum backing loop.... all on Panasonic keyboard...
beautiful machine...
Nice ballad work creating here....

Next up is pop ballad stuff... nothing said by me through all this but you can tell/I can tell it's me
basically experimenting to see/hear where that lands.....

"13th of October 1995 after jamming 'Give Me Something for the Pain'... (Jovi)
This is a piano ballad I'm writing here... playing chords and singing na na na etc....
The song isn't anything like the one I was jamming pre this (the cover song)....
I keep playing but not singing... Acoustic piano...

"16th" must be October 1995 still...
Now I'm na na na ing and playing electronic piano light sound... tines...

Later on this tape side I state that it is 1996 10 12, a jam with Glenn Howard.

First recordings are of me only though....

Piano Ballad... Al making up and playing on piano....
Not sure where the lyrics are coming from as I seem to know the song... playing it...
I either wrote it out or had practised it in order to play and sing it....
'CRYING TEARS OF LOVE' not sure about this one
Sounds like my writing.... will check with other references....
"full retake"
Plays and sings again...

next up Al speaking... a guitarist with me on keys

... 'TRIPPIN' ' - could be another guitarist.

I wrote the song... this here is only Instrumental

'GOOD DOSE OF ROCK 'N' ROLL' Al's song - jamming with another guitarist.

'UNDYING PASSION' jamming playing electronic piano keys with guitarist...

is Glenn I think...

'CAN'T MAKE YOU WANT ME' jamming Al vocal/aah keys with Guitar backing... Al's song...

guitar playing ... Glenn

1996 10 12 so tape labelled 92 is not 92 or I used it, went over it on side B here... and the ones listed since this tape header above.

"12th of the 9th, 10th (Al corrects herself on the date) '96 Glenn "Close enough"... etc

KISS OF DEATH Al's song and title commenced prior... Glenn working on riffs for it here.... the riffs are awesome.... we didn't follow this song through...

'EYES MEET EYES' Al's song... Al playing keys and singing and Glenn playing guitar over the top... Glenn sings along in middle of chorus with a vocal harmony.

'UNDYING PASSION' Al's song

Al and Glenn Al playing keys and Glenn singing harmonies over Al's vocal.

"TENDER HEART" Al's song...

Al playing keys... Al and Glenn singing lead vocal and a harmony.

Al sings a harmony as well... not melody in some places....

Glenn starts to play guitar arpeggios along with jam...

He has played Electric Guitar for this jam session....

tape stops and starts recording again

"14th of the 9th, (correction) 15th of the 9th '96 so WILD IMAGINATION, my imagination runs wild...."

Glenn is playing a guitar pattern and I'm aah ahing along with it making something up...

It is not the 'Wild Imagination' later released song I wrote, it's different....

"my imagination runs wild, daydream about where I'll go,

mystery destination, the future's unknown, got a wild imagination, you've got a wild imagination"

This is a different version of this title than what I wrote and recorded with Paul later....

DEEP AL & GLENN 5 3 97TDK AD 90 SIDE A

Al and Glenn as DEEP whilst looking for other instrumentalists to join us with the material....

We know and have written the songs by this time and are practising through the following....

I DON'T KNOW WHY (Glenn's song) DEEP rehearsal

Glenn's guitar, Al's vocal, sounds like a sequenced drum pattern on the Panasonic SXKN5000 keyboard.....

We play the entire song....

Tape stops starts again and played, sung again...

It is possible Al recorded Glenn playing guitar and the drum sequence and is practise recording over that recording... her vocal sounds live... room sound ambience.... light mic up maybe...

no fx no reverb... unless we were trying to do a backing recording Glenn usually spoke up during jam sessions etc therefore it was known that he was there.

tape stops tape starts

...ORIGINALS RECORDINGS INFORMATION ~ CASSETTES... (continued)

Al and Glenn.... **LOVE OR FEAR** (Glenn's song)

same situation I think... we looped drum patterns on the KN5000... so awesome, sounds like a real drummer.... without variety at that point for time's sake....

Al singing, Glenn playing guitar and the drum loop playing... Glenn sings harmonies as well..

same

FEAR (Al's song initially lyrics and music....and then Glenn's contribution)

same thing... sequenced drum pattern etc and Glenn guitar... Al singing...

Al's not playing the keys here...

SEX & SEDUCTION (Al's song initially.... Al laughs and Glenn does too as she sets Indian drum loop off rather than the intended rock loop on the keyboard....)

So we're obviously playing live in the rehearsal room.... probably at Al's rehearsal room....

Al's singing... Glenn playing guitar and the drum loop going....

LIFE IN ME FROM YOU (Al and Glenn's song... Al's lyrics)

same but Al is playing keys along with a fretless bass sound in the left hand and ahhs synth sound in the right hand.... drum loop.... Glenn playing guitar electric... arpeggios and harmonics etc..... beautiful intro and outro of Guitar harmonics..... OUTRO vocal.... all else drops out...

LOVE OR FEAR (Glenn's song)

same but no keys.... Glenn sings harmonies too over the chorus...

tape stops and starts...

drum loop and guitar music starts for same song... Glenn playing guitar...

Al singing....

SEX & SEDUCTION practised again....

Same as before but Al playing keys... a bit...

tape stops tape starts...

Al has sequenced this; song loops are playing as well in that sequence....

Originally I (Al) wrote this song playing and singing into a rap machine keyboard...

small one purchased from Pianos Plus when Dad had his store...

it ended up with one of my students.... small mic in with vocal fx and cool rap loops and sounds....

tape stops and starts...

FEAR (practising like the others...) keys bass is playing but not my right hand string riffs here on this practise recording....

LIFE IN ME FROM YOU (again practised twice)

tape stops starts again...

"Al says 29 3 '97" over Glenn playing guitar bits mucking around
then Glenn plays guitar part.... it's a song we're working on....
Al plays keys strings over a more busy section of the song.... probably the chorus from what
I can tell here....
tape stops... tape starts again...
Al is playing a main melody for a chorus whilst Glenn is playing rhythm riffs...
Sounds great... we seem to have worked on it...
tape stops as we lose direction a bit...
starts again and we repeat and continue that Guitar String business....
Is like a rock anthem...

Al says "yep THE ONE 3,4" while Glenn mucking round with Guitar riff...
Al plays bass on keys with Glenn playing rhythm guitar batting against the bass with syncopations..
We are obviously starting to write this...
This working is only instrumental and not where we finally landed.
We chat.... Al says "Now what was that bit just then?"
Glenn says "pardon" as didn't hear Al while he was playing (polite)
Al says "was it between 'A' you did a verse?" "Did you go to 'A'?"
"Oh no it could be between 'E' or 'A' "
tape stops and starts again...
We play again....
tape stops starts again
Al sets off a drum loop. Glenn playing along with a drum loop now.... funky rock beat...
Al playing bass line in left hand on keyboard...
tape stops...
tape starts...

The following recorded rehearsal could have been April, May or July 1997 with Rob Powell
on bass, Glenn Guitar, Al vocals keys.. we had rehearsals with the addition of Kevin Murphy
on drums on September the 1st 1997....

DREAM MAN (Glenn and Al's song jammed with Rob Powell on bass I think)
at a rehearsal I believe on April the 9th 1997.

Drum beat... thicker here, all sounds thicker and like real drums....
This is a more advanced rehearsal here.... Al is making up lyrics and vocal melody...
It's just Al, Glenn, the keys, drum loop.... Al is playing the bass line in the left hand...
possibly sequenced....Al singing different lyrics and melody here in the verse... breathes...
is interesting.... think this is a real bass.... checking rehearsal dates to see who????
APRIL the 9th 1997 we had a rehearsal with Rob Powell on bass... we were looking for a
drummer and bass player in particular first.... Rob jammed with us a few times.... graciously...
he had his own originals going at the time and we learned some of them too and rehearsed
them with him and Kevin Murphy on drums...
Both of them were already in many bands and ventures; originals and covers from memory...

FEAR (Al's song and Glenn's extra contribution....) Rob jamming with us here.... on bass...
Sequenced drum loop... Al playing keys, Glenn guitar, Al singing the lead vocal....
Rob's bass sound is loud and clear on the recording of the rehearsal here.....

I had speakers on the keyboard so maybe that's all the sound if coming out of... whereas Rob and Glenn had speakers at the jam sessions. If I had the Carlsbro Cobra speaker it would have been on the floor and not angled up maybe, but I don't think I used it for rehearsals or gigs with DEEP.

I (Al) used an AKG C1000s microphone for these rehearsals which I still have to this day.... great mic. Don't use it with a band as it picks up the cymbals on the drums too much and promotes feed back; is a fantastic recording microphone.... crystal clear sound results...

1997 12 01

Al says "1st of the 12th **UNSUNG HEROES**"

Glenn plays intro to the song.... Al sings... the melody vocal is different than what we ended up with so this is preliminary but we seem to have a grip on quite a bit of it....

The melody on 'Here's to the unsung heroes' is quite different in the Chorus... not bad... just different from where we landed.... singing most of the chorus lyrics.

Al says "Oh Yeah" to Glenn's guitar riffs....

We keep jamming the song over... Glenn starts singing as well in the Chorus....

The tape was stopped and Glenn and Al are obviously working on ideas then record again once, more solid in direction...

Al speaks format, Glenn counts in.... Al plays a few notes on the keyboard to help her with the melody also... reiteration.... Glenn's interesting scalar patterns evident....

Al says "Yeah right"

We talk format to practise and Al asks Glenn to turn his guitar up again coz it's down a bit.

Glenn says amongst other chatter "I'm the quietest guitarist I've met"

He counts in....we start the Chorus again.

Further in Glenn discusses going into the riff for the solo..

Al singing... not sure what here, tape had stopped and Al singing...

"into darkness..... despair etc...."

then Glenn is playing.... Al's singing "Precious love..." (this must be Glenn's song maybe... unless I wrote the words and we're trying to write an arpeggio patterned guitar song together.... sounds like it "Precious love finally lost the will to try..... down on your knees you... haunted by memories seems there's no way out loss and doubt..."

It sounds like I'm making up a melody to Glenn's chordal work...

Organ playing

a cappella

"it's the wonders of life that keep me, that keep me goin'..."

Organ playing with pitch bend end line....

Intro riff again...., tape stops, record again singing and playing

"take me, take me to your love, take me, you be all (?) this life, but I want it, yes I want,

I want this life, I want this life, I wanna, I wanna live life."

organ riff intro starts up again....

bongos.... I might be playing the Roland Ax1 remote controller keyboard I think here....

handheld... there's a pitch bend modulation feature I tap on the upper area of the head of the
hand held keyboard strapped over me.... 5ths intervals... a cappella

"I choose your love, you chose this life for me, I never never knew"

"new one...." Al composing... experimenting

weird stuff now on keys.... different sounds playing.... mucking round with pitch bend....

Now Glenn, Al jam session....

Glenn "Cool" "Yeah I knew you had" "oh Grant, Oh Al you have to hear this too..."

Grant said the funniest thing to me on ha..."

Al "hang on just a sec sorry"

Glenn "yep"

Al's playing a guitar riff... obviously songwriting and might forget it...

Glenn's talking to someone else too...

Al's playing a guitar riff and singing a melody

"It's a wonderful life...", Glenn "Oh man, the guitar's out of tune", Al says "ok it's cool"

"17th of the 10th '97"

Al playing synth voice aah sounds.... drum keys in

"Find yourself wondering where it all went wrong. How could we love like this before..."

tape stop start start playing again....

"We find ourselves wondering why it all went wrong, hold on so tight but I just gotta let go"

stopped tape, started recording and playing, singing again..

"and there was hope when life was sailing on... ahead of our hopes and passed our dreams.

We met at a time when life was sailing on.... ahead of our hopes and passed our dreams.

We couldn't have left it all the way that it was... the pain was for our good it seems..."

I sang that again

"You helped me find my way home to a place where love resides.

Just when I started to break down you made free, me see through love's eyes."

started again... variation, "You helped me see through love's eyes..."

CHORUS

"I can feel your love surround me when I'm falling in despair.

I've no need to be discouraged knowing that you really care.

I can feel you're letting go... you're there."

I started playing again... and singing....

through and chorus and "I'm letting go...."

I practise sections... written another verse here.... song ends with wedding bells scalar...

I do another take near the end of the side of the tape - commences with tubular bells....

Lyrics again in a middle section or outro, "I am loved, you are loved, I"

with the tubular scalar bells ringing out over the vocal....

"So that was a middle 8 or something"
"Where do you find peace of mind?"
"What's your heart saying?.. there's a picture beside my bed of a sweet little girl
she's grown up now....
Sometimes you need to go back in time to know who you are
coz she got lost somewhere along the line.
You know what I'm sayin' coz you've been there.
We've all gotta wonder where life's taking us now....
Sometimes we don't know who we are....
Where do you find peace of mind? ... that is who you are where you find peace of mind"

STATE OF LOVE

"Glenn & Al 4th of the 5th '98 STATE OF LOVE"

Glenn plays a chord while Al is saying this above....

Al starts playing the Roland AX1, played riff she's playing...

5th descending on the chordal patterns.... used left hand middle finger tapping the pitch modulation area with an affect on it... whilst playing chords with her right hand on the same hand held keyboard... strung over her like a guitar....

This is also a MIDI controller keyboard.... It is red... she still has the keyboard in 2022...

(amusing fact - went to a KISS concert, was so hyped about those glitter platforms etc that when I got home I glitter nail polished the AX. Not so good, keys stuck the next morning.)

Glenn plays along...

I wrote this song based on someone I met at a cafe who was a waiter at the time as well as a musician in a band... he went on to marry his love, had a family and gigging with his music...

The song was developed in an embellished, different direction than the 'true' situation at hand but the ambience is great as a result of the reality of the who this man was.... a genuine person... who cared for those around him.

Glenn and Al practise harmonies and lead vocals for the song whilst Al plays....

DEEP 13 9 98 TDK SA90 CO WRITING SIDE A

" '98 **MY LIFE**" Al says, DEEP are making this instrumental backing up here...

It doesn't have the swing beat it ended up with...

Al, Glenn, Pete and Nick are composing this together...

It's Glenn, Pete and Nick playing instrumental for the song... guitar, bass guitar, drums.

I remember standing away from them a bit and working on title, melodies

and ideas and later I would have used this to write the lyrics and melody

over the top, then we swung the beat.... I think I had titled the song as MY LIFE that first

songwriting session and written some lyrics then completed them that night and into the next

day at home and then brought it back to the band recorded over the rehearsal/songwriting session
recording from that first night.

Pete later came up with an idea to put an extra beat/half beat in between a section...

was weird and difficult at first but fabulous in the end... and sounded natural

It landed prior to 'Bad memories...' the end of a chorus, instrumental interlude into a verse.

Glenn and Pete are now adding their parts to the intro...

now the song is swung...

Al starts singing... "My sad and weary soul.... etc"

MY LIFE

Sounds more like the final product...

The tape recording is picking up Glenn's playing... sounds cool....

Al singing most of the song so she's worked that out and they must have practiced it somewhat pre this rehearsal recording...

tape stops starts again Al says "take 2"

We start from the beginning it sounds great..

This was our one and only full band songwriting collaboration and was awesome...

Al's mic'd up better here and you can hear the vocal and lyrics well

We do it again...

Al playing electronic keys piano and strings and singing making up song....

ballad... some lyrics and melody over her playing... sings some chord names over her playing...

G Minor etc.... "give me love..you don't know what you can do... and you feel a little lost and lonely.

Just remember..... Now I know the truth I can feel it.... lovin' you.... moment of truth...

you squeeze my hand... touch my heart.. feel moment of truth..."

This is not the same 'Moment of Truth' that became that song.... hard to decipher what lyrics I'm singing here... but it is a beautiful instrumental that I may use later with a different title....

"Surrender to me my darlin'... you can have your freedom.. love will see us through.

On life's road we can have it all, delve deep, admit the truth we are in love, we are in love

we are in love.... unconditional love..."

Al makes up more.... "surrender your heart to me... fallin' deeply in love

why does this weakness make me strong.... my will has chosen to be here...

I am happy to be here"

MOMENT OF TRUTH Piano ballad continued Al - a different recording session.
just Al.

1999 01 15

"15 1 99"

Sounds like I was recording where Glenn and I rehearsed and jammed
and maybe even taped over my workings of Moment of Truth with Glenn and my jamming.
THE SUN WILL SHINE THROUGH THE RAIN - my ballad me jamming by self with piano.

15th of 1st '99 Glenn

Glenn clicks fingers and says "Alright, do you like this, this is a click track"
laughs... "ha ha"
"Yeah that's good, that's good" (Al replies)
Glenn says "OK, It's in C sort of mixolydian type thing, so"
Glenn sings his new song idea to Al.
"If you're gonna send me down...."
we jam the song with me singing with Glenn's playing.... a few sentences repeated....

another ... Al commenced writing of...

"REVIVE ME... or BURIED ALIVE...REVIVE ME" I say to Glenn and on tape

Glenn and Al (Guitar/vocal) 15th 1st '99

Glenn says "REVIVE ME's a wicked name I reckon."

"Chorus" (Al) I say "Sorry" (drums)

"Yeah do it with a drum beat." (Glenn)

Al sets drum pattern on her SX KN5000 Panasonic keyboard on

I came up with the title and idea... Glenn and I jammed it pre recording our ideas same night's recording session at Al's studio room as the previous song of Glenn's.

The guitar backing is very much Glenn's magic...

the vocal melody is mainly my idea that night for the riff...

we keep jamming... we discuss stuff and agree upon a few things along the way....

Glenn's trying to understand what the riff is... the verse or what.... he makes suggestions.

REVIVE ME (continued)

Glenn works out some lead in guitar riff idea when Al suggests a type of musical sound she's thinking of...

next we're working on another song....

Glenn playing guitar to my song "To Have & To Hold"

he tries a few colourful extra notes in the chordal arpeggio patterned accompaniment.

I'm singing while he's playing guitar.

"1:45am 4th of the 5th '99 **NEVER GET OVER IT**"

Al's compositional writing.... the backing is full here so I must have worked on it prior to now and am now singing over the backing maybe??

The vocal melody and lyrics are quite advanced in direction, I've worked on the writing of this song pre this cassette recording....

no harmonies on this yet.... I added them with overdubbing I think....

I wrote this song with Britney Spears' voice, singing the song, in mind at the time....

More repeats of singing the song with the backing on the tape.

The backing is my keys playing with a drum loop... strings... piano.... tracks... sequenced.... by me....

after one of Paul's song's on here, that I sang/recorded vocals for,

another of my originals recorded with Paul's loops at Paul's studio is here now

WILD IMAGINATION

There are vocal harmonies and all and Paul has added the rhythm guitar work I asked him too... it's not the master...

I recorded my own backing on the keyboard with drum patterns, bass lines and keys parts pre taking the recording and song to Paul in order for us to record it at his studio.

Next up is Glenn playing.... with a click cymbal.... it's one of his songs (Secrets and Lies).

He's singing it but he eventually got me to sing it and record it... it was on the DEEP album

LOVE OR FEAR....

The song is "Secrets and Lies" - he's singing it high as it was written for a higher pitched female vocal range... although he could have re recorded this and released it with his voice on it... He would have recorded this so I could learn it....

"that was key of 'E', now key of 'D' " I re-commence singing in the key of 'D' playing whilst singing the complete chorus.

Possibly singing along with and maybe playing live over a sequence on the keyboard.

Running the chorus a few times.

I stopped playing and said "please don't get over it, never get over it"

stops tape starts tape "Verse 1"

I start singing and playing a verse... the melody is different from where it landed later,

it is faster than it ended up being too... but I know the words, I must have worked them out

then I stop the tape and start stop, start stop recording while adding a few vocal lines a cappella...

I'm continuing writing the song as I practise it....

Need a DB gate on the playing, I'm emphatic with the playing.

I say "Full take, ah Never Get Over It 30th of April, 1st of May, ah recorded on the 2nd of May quarter past 1 am"

I sing and play the song again.

tape stops and starts again recording.... I'm adding the verse....I'm singing out loud above the playing, not mic'd up vocally. Being 1999 this would have been in a small studio room where I taught piano.

1999 05 03

tape stops starts again

I say "The 3rd of May '99 quarter to 11pm new version of 'Never Get Over It' written 30th of April, 1st of May, in D new sequence."

I set the sequence off and sing along with the backing.... just drums and bass sounding whilst

I sing this time for the verse 1, chorus, verse 2, chorus, outro.

I say "and again, slower 88, that was 90" *bpm

The sequence is set off again and I sing through again...

DEEP JUNE SOUND REHEARSAL TDKD60

DEEP JUNE SOUND REHEARSAL TDKD60 SIDE A

Rehearsal for DEEP with Al, Glenn, Peter Mollica on bass.... Adam Salerno - Drums/Vocals
Adam must have jammed with us once here and Al was singing in the Covers band
BASHFULL with Adam at the time...

the later years after DEEP gigs, around year 2001, we asked Adam to be involved on Drums.
We had photo shoot all together... Al, Glenn, Pete, Adam but Adam was unable to continue with
an event occurring at the time.

We never gigged as DEEP after 1998.....

Noted in discussion here at this rehearsal is Pete's new son....

Guys playing some death metal like song at the start of the tape... not sure if making it up??

I hum along loudly making up a melody so that must be what we are doing...

no speaking intro on this tape..

friends are at this jam...

SEX & SEDUCTION (Al's song with Glenn contribution and others playing here at this rehearsal)

Glenn - Guitar, Pete - Bass, Al - keys/vocals, Adam Salerno - drums/vocals.

Lots of chatter recorded to tape, forgot to turn it off and friends are all saying goodbye
but that's good 'cause it indicates to me when this session would have been.

SEX & SEDUCTION guys are singing harmonies over this song.... all mic'd up

STATE OF LOVE (Al's song) contributions from Glenn etc...

I had said just going to do this one.... Pete said "What time is it" Al says "20 passed 11"

Adam, Glenn have discussion at end of tape... tape runs out...

DEEP '99 MASTERS 14 10 99 TDK D60 SIDE A

These are masters' recordings onto cassette tape

Glenn must have given me these...

Al is a bit perplexed as to these masters as the drums don't sound like the original recordings with Nick for example.... not sure...

The drums sound electronic.... I wonder if Glenn redid them on keys/loops or something...

The vocals sound more glassy too... they are not the mixdowns from CLEARCUT productions...

Different fx etc.... Sounds like Al redid a few vocals too... more raspy etc..

Glenn's song first up.... his recording and singing etc...

song continued from side A on side B

"22nd of September '03 after the EMMY's"

AI playing/writing acoustic piano ballad....

titled by end session

NOT HAPPY ON MY OWN

Quite a way into the process I start ah ah ing some melody over the top but not much...

Start trying to add a vocal...

"be strong... and when I look into the sky longed to be.... and I've longed to ...

and the night seems cold, and I've got to be whole... to....

ah ah ah etc...."

cadence wants words to title the song

"TELL ME YOU'RE MY OWN" "the truth is I'm not happy on my own..."

Continues

"and I pretend that I am holding on... even though the....etc."

tape stops

I start singing and playing... line by line stopping starting recording....

" At times.... the writing on the wall

and I cannot see the road ahead, don't know which way to go,

but there is only one thing I have longed for but have never found

and I hope this road I travel down will bring me hope

(Chorus) to a life filled with love

I'd give it everything I've got... and I'd always look back and be grateful for what I have

In this life I've been given...."

"It seems that every day the world just passes by, feel like I'm not going anywhere

despite how hard I've tried....." etc

Will write these lyrics out and complete/record the song properly one day

Great melodies etc....

"Lead break wow wow woww" I'm singing the lead break.... whilst playing the piano...

over the middle in to the chorus I think. I say continuing...

sing and play more.... some sort of a middle.....

"12th of the 6th '04 after writing email to Jennifer Garner"

SHARING LIFE WITH YOU

I'm playing acoustic piano and na na singing a melody composing it...

and I sing "I'm sharing life with you..... Sharing life with you...."

This is a different chordal and instrumental version of commencing 'Sharing Life With You'.

The song I wrote about Jennifer Garner and Michael Vartan's characters in the series ALIAS, Sydney Bristow and Michael Vaughan,

with Faith Hill's voice in mind for stylistic approach.... and probably composer Diane Warren.

I am playing a different accompaniment than where I landed with this song.

"This is going to be too high in A flat major... I'll have to take it down"

Experimenting....

Stopped tape and started singing

"And you're always on my mind..... da da da da da etc"

2004 06 13

"13th of the 6th '04 10:46pm recording the first double verse or verse 1 verse 2 A Major"

singing and playing acoustic piano..

"Love found it's way..... etc...."

This is the version I landed with.... so I must have worked on it away from the cassette recording and am now singing and recording quite a full song..... must have done a chart...

Still feeling my way around with the Chorus... is getting there....

goes on for a while then

"Full song 11:39pm 13th of the 6th '04"

Playing acoustic piano and singing....

"repeated"

playing again and singing...

stopped

playing again... last few takes I've mic'd up the vocal...

A different instrumental intro than what I ended up with and it is also played again at the end of the song.

PHONES INFO FROM AJ HOW DIARIES ~ used for recording, originals music processes etc.

Phones used for recording and taking photos etc for originals music.

I had several Nokia's. The first Nokia I purchased around 1995 - was large and thick and only used as a phone. The 2nd, a Nokia was small, silver, opened out as a keyboard and closed up as a compact phone. Had blackberry etc, quite mod at the time.

The 3rd was a Motorola (2006). The 4th an Apple iPhone 4 (2011).

The 5th, an iPhone 5 (gift from nephew - a previous phone of his and his fiancé).

The 6th, an iPhone 6. (gift from nephew and his partner 2021)

The 7th, an iPhone 13 Pro Max (gifted from my sister 2024 - her previous phone)

I recorded via all phones except the first one.

They have been a great tool for storing and transferring information about my music creating, for learning and communicating; including for observing the website (Musical Rise) development.

Monday 12th January, Birthday 41st, picked up Martinez guitar from Margate Music (Tony Pennisi) half paid for by Mum and Dad towards my birthday (might have picked it up on 13th Tuesday)

2009 was a big year for recording and writing songs....

I had an operation the year prior that set me back as did other previous situations in 2007 so this was a difficult year but I gave it my absolute utmost...

The following is a list of recordings that were recorded onto a desktop computer setup during that year. There was a computer crash in Melbourne in 2007 and one in Queensland and again in Melbourne when I returned and I did lose some original files so now I have EHDs with backups of files... I also have CDS with extra files on them, some that are of the original computer files that have been lost.

I still have AMPEX 456 reel to reels from a Tascam recording years ago and Mini discs and MIDI floppy disks of originals' backing tracks and sequences done for songwriting purposes and backing tracks, tracks which were separated, lined in or transferred as audio or midi to the computers for updated and continued recording sessions of the songs.

The following recording dates, some of which are specific and some of which are general, do not always reflect the dates of the songwriting processes but are nonetheless part of the journey and development of the material and the ability to bring it to others in multiple formats.

This list I will do in Alpha song order with dates listed beside the songs' recordings.

DRIVEN CRAZY, STAYIN' SANE

2009 08 10

Files dated 2009 08 10 2009 08 11 2010 07 28

The files have 10 8 09 on their titles but that's because I copied and pasted the first track's title for others.... the program's title area left was dark and the writing transparent so I couldn't see what I was typing so I copied and pasted titles.

Most tracks are guitar songwriting workings then the last track has quite an a cappella vocal on it with lyrics... I had written the lyrics and am singing from them... see charts...

2010 07 28 is the file with the vocal on it.

- ETERNITY mod date 2009 04 24 title file ETERNITY C MAJ 12 4 09 is an mp3

This song was a huge issue recording as a friend had worked on a song with me accompanying her, her instrument not in tune... so I detuned the keys and forgot to tune it back to 440Hz so this recording was out of tune..... no good.... especially for this song...

I can play with instruments in a slightly detuned fashion but once I add vocals my intuitive vocal pitching knows that what I'm singing with is out of tune...

Danny counts in "ah 1 2 3 4" Al sings while Danny plays guitar... Electric... recording to Al's PC at her rental residence that year...

Danny and Al having met with her having searched for musos to do originals with... via Melband listings online...

This is Danny playing and Al singing through the whole song... lead vocal...

it shows it's going in a great direction already at this early stage of it's development...

There's a vocal harmony on the track so I either recorded the harmony while Danny was there or had done so over a basic track in between sessions, prior to more recording.

HIGH PLACES folder

Song was recorded years prior in the early 90s with Andy Sorenson and Ric Wong.
which is the version that I released on the Musical Rise website for authenticity of originality.
But this version here I have attempted recording a new lead vocal over the backing track from cassette tape trans contemplating using the new vocal...

At the time of the original recording I was singing with a deeper tone as an experiment that I don't prefer on that song....

This folder has these files in it.

HOME folder ~ assisted music chordal placement and sang/played on track recording.

This song is S. Glase's song (composed 2006) ...

I assisted him with Chord additions to his lyrics and vocal melody.

He basically came to my residence, at the time, and whistled the tune and had the lyrics written out so whilst sitting at the computer I added chords under his melody with the keyboard.

The song was rehearsed, recorded at the time with Steve on drums,
me on vocals, and Aaron on bass and a guitarist.

These wavs and project file are from the original recordings done in 2006

These dates are not the dates of the recordings.

This song, the recordings and files have not been published anywhere to my knowledge.

TANDY COMPUTER PRODUCTS double sided double density 100 certified

This list is titles on disks only there are multiple MIDI files of tracks & workings on these disks and some other songs' workings are on the disks that are not listed on the labels.

This is still a relevant summary.

Not all the disks are labelled with years and dates but the files on the disks are.

Most of the disks' tracks were recorded in Technics format, some General MIDI.

The recordings were on mostly a Panasonic Technics keyboard.... SX KN2000 around 1993

SX KN5000 in the latter years.

I still have the SX KN5000 keyboard and the disks can be converted to GM and transferred to the PC via the floppy drive I have in a computer from around the year 2011.

I Had a Pentium IV but with issues towards it's end I received a replacement as Pentium III setup.

"Retribution rewrite see the words.... 19 3 2016"

"The sure way to seek a death wish" etc

I considered changing the song as I used loops and had incorporated the loop riff in my vocal
melody for the song.

I had contacted the company whose audio loops were in a recording software program I record my
songs in... they told me originally, in 2006, that as long as the company were mentioned regarding
usage of the loops on a track that was ok... later I emailed them the song lists of audio loops
used on my songs' recordings.... originals, and spoke with a rep on the phone who asked me to
email a list of the loops used etc... I received a reply that the loops were not theirs, not MAGIX
loops. (Company was bought out so I'm not sure what's going on).

It's easy for me to write songs and replace the instrumentation...

I originally wrote the song for fun and decided it was too good not to follow through with...
anyway... I tried a re write here.

The vocal and the backing guitar are very different from the original...

Possible to re do the song differently in the future if I decide to and need be.

The lyrics were all mine and most of the other musical parts of the backing.

NOT WINNING ISN'T LOSING

"26th 9 2010"

Songwriting session recorded

Al singing and playing acoustic guitar, melody slightly different here but towards final melodies etc.

2010 09 26

V008

NOT WINNING ISN'T LOSING

6 mins 5 secs

"If you don't reach the top..." speaking around singing and playing guitar... composing the song....

Al singing and playing guitar... have written the words as singing and playing the verse as though done so.... and still finding my way around the chords I want to play and the melodies for the vocal part...

V010

6 mins 40 secs

"capo 4, starting on G.... sounding in A... right...play it A minor"

Al composing a song playing guitar... instrumental only here. Songwriting session recorded.

V011

6 mins 20 secs

Al playing acoustic guitar... na na na-ing.. etc playing acoustic guitar...

singing a few lyrics... composing a song... Songwriting session recorded.

This is a variation of another song....

"An innocent baby is brought into the world...."

This is a rock version, darker than where the lyrics of this song ended up in another musical backing with similar words...

The recordings on this mp3 player are muffled so hard to decipher lyrics...

V012

2 mins 51 secs

continued songwriting effort of same song as V011

Singing some lyrics and playing guitar and saying things about frets etc inbetween takes and whilst playing...

V013

4 mins 49 secs

same song working on composing... singing a few lines and playing acoustic guitar..

driven minor folk rock riffs

MP3 PLAYER VOICE RECORDINGS continued

V015

3 mins 8 secs

same song working on composing... singing more lines now...

V016

1 min 44 secs

same song continued... slower this time with arpeggio guitar backing... less strum like.

V017

1 min 36 secs

song slower again...

V018

5 mins 2 secs

"11 10 2010 ADS ON TV" (**THE ADS ON TV**)

Have obviously written some lyrics and am singing and playing guitar... composing the guitar part here and working on the vocal melodies more than the lyrics themselves.

Songwriting session recorded.

V019

6 mins 37 secs

Playing an interesting guitar riff here composing a song....

Songwriting session recorded.

This is the start of **DOES IT HAVE TO BE THIS WAY**

Partial song... worth following up... is similar to Don't Shut Me Out.

V020

"**JUST SAY THE WORD** ... 2nd verse"

Playing guitar and singing lyrics and melodies as though I've worked on it away from recording and am recording it now. Songwriting session recorded.

V021

6 mins 44 secs

"19 4 2010 11pm **WHAT IT TAKES TO BE A FRIEND..**"

Singing and playing guitar... songwriting session recorded... folk rock number.

Stopping starting a few times to get to where I want to with the chords and vocal riffs.

Speaking in between takes...

MP3 VOICE FILES

Another folder but would be Thomson mp3 player with external mic

The same number system but the files are different so the file numbers here are new ones as compared with ones above here.

V011

4 mins 2 secs - Al playing guitar composing.... no lyrics or vocal here. Songwriting session recorded

V012

4 mins 45 secs - Al humming and playing guitar... singing a melody vocal of sorts... quietly..

Songwriting session recorded. Higher vocal at end... chorus ideas I think.

MP3 PLAYER VOICE RECORDINGS continued

V013

2 mins 29 secs

PEOPLE ARE AMAZING

Songwriting session recorded.

Al playing guitar.... melody within guitar riff... singing in middle of track... "people are amazing"

V014

ORIGINALS AJ HOW & CO DSM INFO

DIGITAL SHEET MUSIC & PHYSICAL HANDWRITING/NOTATION TIMELINE

The first few official songwriting experiences I had were that of co-writing,
one in the early 1980s and then again in 1987.

I had written music prior to that and words to paper but not officially.

These AJ How Originals and Co-writes files encompass the years 1987 to 2022
although I deliberately stopped writing music around 2019 with so much work to complete
of all the different products related to each song..... I would write and write and write...
so, 35 years basically of ongoing active song writing.

In the 80s I notated originals music by hand onto manuscript paper.

I had learned notation in music class at school and studying Musicianship (Music Theory)
and piano studies for exams etc. Most of my music colleagues in the late 80s did not
read notated music but played by ear so I learned from them to see music from a more basic
format/structure perspective thus making it easier for me to then notate in detail.
I have the notation sheets to date. They are also stored as digital files on External Hard Drives.

I have taken photos of/scanned the originals charts I notated during those years.

When I composed songs, mostly at the time of doing so, I hand wrote, typed onto paper
using a typewriter or onto computers etc and/or recorded audio of the lyrics and music.

in 2011 and in the years prior to that I photographed/scanned those lyrics chords charts
that I kept in folders over the years and they are stored on External Hard Drives.

I used these records of the originals for typing the lyrics chord charts and towards
performing, recording and notating the sheet music.

Any mention of typed files were files typed by myself, Alison Jane How.

All mention of jpg pages - I still have the physical contents of my songwriting... most of them.

When I started using a computer that was given to me by Paul (DSquad),
not until I was 30+ years of age, I purchased Finale Print Music Software
with Paul's guidance at a store near my residence.

I commenced creating Digital Sheet Music using that software Finale Print Music
around the year 2002 using a Computer that Glenn gave me.

I purchased the program, mentioned, on a disc in a box from Music Junction, Blackburn, Melbourne.

I still have that to this date, having the software on all my computers and have upgraded
the software online and moved on with the tech. advancements,
other software integrations and computer capabilities.

I like to mix usage of other equipment throughout this process and often would
record/sequence a backing track for originals on the Keyboard Panasonic Technics SXKN5000
saving the MIDI files on floppy discs then transferring the files as SMF to the computer
and importing them into the digital sheet music program to use as a basis for authenticity and
accuracy of the recordings and songwriting for my originals digital sheet music construction.

When I have completed songs' notations I can play them in the digital sheet music program
hearing the sounds from it or transfer the MIDI into another software program hearing the sounds
from that program or play it back through the Technics hearing those sounds.
Then.... I can use that as a backing for recordings.... or vice versa, all amazing and fascinating.

AJ HOW & CO ORIGINALS ~ SHEET MUSIC RECORDS

Alison Jane How's songwriting with some co-writes included.

Digital sheet music references listed below with dates and information as gathered from sources including computer hard drives, digital and physical drawing/saving methods of items as well as physical items scanned/photographed/typed/stored/audio recorded etc.

Not all of the songs that I wrote have been notated on manuscript or in writing.

Some are not listed here.

Digital Sheet Music Files were commenced in Finale Print Music software purchased on a disc in a box at a music store around the year 2000.

Other versions of programs were downloaded and purchased as digital software some of which entitled upgrades or updates. I use other software in combination with the digital music software to compliment it and develop the items further.

Finale Print Music 2011, 2012, 2014 F 2012 is Finale Notation Software 2011a

Finale 2012 (Finale 2011a)

Finale 2009

FINALE download software purchased with upgrade via Make Music... 2018 to 2020.

after 2020 Finale v25

*N.B. Finale notation software is dated a year ahead of it's release so 2012 was 2011 released.

DSM files titled with 'alt' were re worked on a new laptop computer where the files had been previously worked on or commenced on another PC and External Hard Drives.

I was using Print Music 2014 and Finale at the time with an upgrade of the software working on the files in both programs to see what I wanted to do with developing them...there were also glitches in the Finale program causing issues with working the files in the new program.

I continued working on the files in Finale mostly.

MUSICAL RISE WEBSITE ~ many files were uploaded and published by myself via the Musical Rise website between 2019 and 2026.

The site was commenced end May 2019 by myself, Alison.

Prior to that audio etc files and lyrics were uploaded to the BANDCAMP website, uploads of products commenced in 2018, December in particular onwards.

The songs' digital sheet music is published mostly in the keys they were composed in.

Some have been published in multiple keys.

This is rare and in general one has to search for the original key online somewhere else in order to ascertain what key the composition was written in originally, especially where multiple artists have released the same song in different keys to suit their voice, instrumentation etc.

Often the songs are recorded in keys that were not the original key.

I intend to supply the digital sheet music for each song included on the Musical Rise website in all keys eventually. The MIDI exports of the digital sheet music, which are supplied for each song currently, can be loaded into devices, keyboards, sequencers, sheet music programs and transposed into other keys, but this can be a messy non-formatted task; better supplied direct.

Digital Sheet Music notated in Finale v25. Files published as retail items via the Musical Rise Website Store in 2024 06 23+30, 2024 07 14+15.

This song was notated in Finale v25 software whilst the composition was being written with songwriting workings recorded as voice memos on an iPhone 6.

Notation at the time of composition made notating the song as digital sheet music products quicker and easier to complete than doing this after the song was composed and recorded.

Songs after this song were written, recorded and notated in the same fashion but some with a different phone voice memo app.

Compositional dates

A MINOR

2011 05 23

Manuscript page with Dare to Dream as title in different coloured pen than the notated music on the staves on the page. This is a photo of the manuscript page. Handwritten workings.

Dates to the right of the title are 16.10 & 5.11.91. Riffs on page with chords written over top of staves, lots of 5ths notated for guitar playing stylistic approach to rock chords accompaniment.

Some mention of lyrics particularly in relation to a chorus, outro etc. A Minor.

Songwriting process notated by AJ How

(jpg, photo'd page)

A second manuscript page with date to right of title being 27 12 1992.

On this page is handwritten chords and melodic workings. Not much here but something.

2009 02 ? (possibly 14th as recording project dated as such for the songwriting files.)

Compositional date - was written in between 2 songs in February in a notebook with continuous white lined pages that I wrote songs in, haven't put the date on either of the pages so

I am assuming I wrote it in February 2009. A diary may confirm this guess. No nothing there.

ROSE AVENUE (DSM WORKINGS)

Compositional date ~ 1994 09 12

I wrote this song, the idea being pondered as I drove passed Rose Ave in Surrey Hills Melbourne driving up/down Warrigal Rd, for many years, particularly 1987 to 1992. I noticed the name of the avenue driving up Warrigal Rd, almost to the top, Canterbury Rd T-Intersection, Rose Ave was on the left side of Warrigal Rd.

I thought of life, this was pre the 'thornless-rose-era', thought of life blossoming, especially during Springtime and the pains we endure through to hopeful opposites/outcomes and the beauty that often survives or revives throughout that experience. Also, for me and many others, associated the rising after death, particularly in relation to Jesus' death and resurrection, having Eternal life.

Lyrics chart - uppercase typed (txt file)

2011 05 23

Handwritten lyrics by AJ How (mod file jpg date is 23 05 2011- handwritten years prior)

Typed lyrics with penned chords above lyric lines A Minor typed on file right of title 1992.

File titled IMG_3121 RUNNING OUT OF TIME

Lyrics typed sentence case. This was the original title of the song which became titled as 'TIME'

Dates top right page are May '89 Sep '89. Handwritten pen edits are also on the page for the lyrics edits. The chorus is more detailed in words and is not the final chorus I used for the song.

The lyrics that were a verse in this version became the lyrics for the chorus in the published final version.

WILD IMAGINATION (DSM WORKINGS)

AJ HOW

1999 02 06

Compositional date,

When this song was recorded with Paul at Clearcut Productions he suggested some vocal additions, particularly in relation to echoes in the chorus. These additions may be notated also. There are several versions recorded of the song, including a remix by Paul done in later years.

F# MINOR

On the DSM files for WILD IMAGINATION, which have not been published but have been prepared, I credit HOW & a co worker who recorded some loops etc on the audio recording released and made some vocal suggestions having additional direction input during the recording process; since then the person who recorded some parts when I recorded this song at his studio has said the credits should be with the songwriter; anyway, credited him in text on items in preparation. The files that will be published to the Musical Rise website in the future will be titled with my name only on them as the composer as per request.

File titled You or Nobody (txt file) lower case lyrics - no title or author etc...

this file either came from a PC file burn to CD before a PC blew or the computer it was created on had the wrong timestamp on it?? Checking for other relevant back up info. Is entire song.

I very rarely do lyrics charts in lower case but for the fact that did 2 variations on lyrics charts for purchase via the Musical Rise website for those who prefer Sentence case lyrics charts.

FEAR (DSM WORKINGS)

INITIAL COMPOSITION ~ LYRICS & MUSIC ~ AJ HOW

later with DEEP line up...

LYRICS ~ AJ HOW

MUSIC ~ AJ HOW/GWB HOWARD with additional elements for Bass by P. MOLLICA

1992 04 12

Compositional date of music workings initial AJ How

1992 04 20 - 1992 06 28

Compositional dates initial AJ How - with some lyrics the same as the final song and others different; could have written 2 songs called FEAR.

Manuscript workings 1991.

Initial composition by Alison Jane How - recorded by Alison in the 90s.

Later around 1997 Glenn William Beckingham Howard contributed further to the music.

Then the originals band DEEP recorded and performed this song.

File titled FEAR©AJ HOW draft in car at BNBC car park originally/
IMG_3036 FEAR possibly scribed in Blackburn North Baptist Church carpark (Melbourne)
also photo'd as file titled IMG_3043 FEAR

Manuscript paper handwritten notes in blue and black pen. AJ How.

Music riffs for the song... the bass line and the right hand.

When I wrote the song originally I was sitting in the carpark of a Church and wanted to compose an Atonal piece ... I tried to make the bass jump around pitches with naturals, flats and sharps with the right hand more steady elongated with longer rhythmic values, but minor scale/atonal ascending where the bass descended.

At the time I was imagining what this would sound like, that which I was penning to paper.

I didn't hear the parts together until I got to the keyboard to try it out.

Part way down the page under the bass clef sign I have a circle round the word FEAR and one round numbers 5-11

I have written 16.10.91 part way down the page

Compositional date listed on format chart handwritten by Alison on paper.

D MINOR - E MINOR

2011 05 23

File titled IMG_2711 MOVE ON

Typed lyrics with black pen chord letter names of lyric lines.

Title and under says ALISON JANE HOW © 1990

I typed this one with a typewriter; it is on typewriter paper... might have been fax paper at the time

Used to rip the pages of long cerated edged pages all joined lengthwise.

Extra lyrics lower page in pencil.

(jpg, photo'd page)

File titled IMG_2712 MOVE ON

same page as IMG_2711 but with no pen or pencil chords or extra lyrics on page.

(jpg, photo'd page)

File titled IMG_3080 MOVE ON

Handwritten lyrics - 2nd part of note paper page is the verse 1 for the song..

This here is interesting as there are lyrics prior to it that I think were for another song.

My handwriting for both songs.

(jpg, photo'd page)

File titled IMG_3094 MOVE ON

same page as IMG_2711 but with some blue pen edits and extra down lower page.

Handwritten lyrics edits.

This typed lyrics version Jean gave me with different lyrics. I think it was a 'modernized version' of the lyrics she thought might be more appropriate or for a hymn book inclusion... not sure. Anyway, I recorded and Digital Sheet Music notated the original lyrics.
Lower page Jean has typed left of her name c 1994. So the edit then.

Notation sheet music Solo, Coloratura Soprano, S A T B PIANO pages

This sheet was an initial working of sheet music. I credited another person as music co-writer due to the fact that he had given me some songwriting advice upon my request, including to perhaps commence the chorus on the beat and the verse the upbeat or not count 1 of the bar.

I have since not credited him for several reasons.

He would disagree with being credited and see this as more of a songwriting/mentoring suggestion towards general songwriting; however, it did influence my approach to the verse and the chorus commencements for this song.

He, Grant Norsworthy, is now, amongst other things, More Than Music Mentor.
(grantnorsworthy.com)

Grant inspired me musically, introducing me to more music etc in the late 80s.

His mother was the Director/Conductor of the Senior Youth Singers at Blackburn North Baptist Church which I played the piano for and then led when she retired from that position.

HYMNS DOROTHY OLIVE DYALL'S WORDS ALISON MUSIC

A diversional therapist at a Retirement Facility gave me Dorothy's words, handwritten but photocopied sheets (small pages) asking me to put music to the words/poems.

(I think she had been asked to compose music for the lyrics but she gave them to me to do so)

I met Dorothy and some of her family members during that time and have kept in touch with her family since then.

ALISON JANE HOW & CO ORIGINALS VIDEOS/PERFORMANCE INFORMATION

AJ HOW & CO ORIGINALS AUDIO VISUAL RECORDINGS pre 1998

1988 'YOUTH MISSION FEST' event

1988 06 18

Alison performed one of her songs with Andy Sorenson on vocals, her on vocals and grand piano and others playing the instrumental backing in a band line up with backing vocalists. The event, 'YOUTH MISSION FEST', a Christian event held at Blackburn North Baptist Church. The song 'EVERYWHERE I GO/I'M NOT ALONE' was amongst many other performances that night.

The event was recorded and Alison has a copy of it on VHS tape, recorded to DVD then transferred to computer. This recording has not been released/published/broadcast to date.

There were other performances of Alison's songs at events by her and sometimes choirs but there are no audio visual recordings of these events.

DEEP ~ Originals Band - Performance Footage 1998

Originally recorded onto camera tapes, copied onto VHS tapes, burnt to DVD then transferred to Computer hard drive. Converted to mp4s for uploading to the Internet and burning DVDs etc.

DEEP performed 3 times at 2 venues in 1998 September to November.

The Evelyn Hotel twice, The Central Club once.

The Evelyn Hotel gigs were filmed by a friend with his camera, Channel 31's Melbourne Musos Chris Quinlan for our first gig, CD Album release 'LOVE OR FEAR' and a person hired to film the 2nd performance which was at The Central Club; the 2nd gig not published to date.

Some of the performances recordings were converted to mp4s and published via the Musical Rise website and made available to purchase in mp4 format in the online store.

The songs and dates of files and performances are as follows.

See songwriting credits on other AJ HOW & CO Originals' Timeline document areas.

GIG 1 ~ THE EVELYN HOTEL ~ NORTH FITZROY MELBOURNE

Wednesday 2nd September, 1998

Most of the performance that night was filmed, some missing with camera batteries going down. The following songs list are recordings from that night converted to mp4s and published via the Musical Rise website store online as DEEP Gigs Footage.

CLOSER ~ DEEP GIG 1 SEP 2 1998 Melbourne Musos Camera

SEX & SEDUCTION ~ DEEP GIG 1 SEP 2 1998 Camera ~ Warren

...DEEP ~ Originals Band - Performance Footage 1998... (continued)

GIG 2 ~ THE CENTRAL CLUB (Swan St, Richmond)

These recordings have not been published as of yet.
The gig was recorded by a hired film company and is on a VHS tape.

GIG 3 ~ THE EVELYN HOTEL ~ NORTH FITZROY MELBOURNE

6th November, 1998

Most of the performance that night was filmed, some missing with camera batteries going down.

PERFORMANCE VIDEO RECORDINGS

There may be more performance recordings that I have not been given to date.
If anybody has any recordings please let me know, thank you.

1988

I'M NOT ALONE/EVERYWHERE I GO

(Al's song - performed by a group/band)

JUNE 1988

18th

The Event was filmed and Alison has a copy on VHS tape.
Andy Sorenson sang the lead vocal parts with Alison singing some too and harmonies
whilst playing the Yamaha Grand Piano with a backing band on the stage
of the Sanctuary area at Blackburn North Baptist Church.
Alison composed the lyrics and music for this song which was one of many performed that night.

2008 MYSPACE PAGE, ORIGINALS UPLOADED, MYSPACE set up 2008 04 15

Sent on sticks to various Music Industry professional and musicians, organization, individuals etc

AJ HOW & CO ORIGINALS PHOTOS OF PHYSICAL PRODUCTS ETC
INFO FROM ALISON'S COMPUTER HARD DRIVES ETC.

LIST IN TEXT ONLY, SCREENSHOTS PICTURES WERE TAKEN OF EACH OF THE PRODUCTS PRE DELIVERY. CANNOT DELIVER PHYSICAL PRODUCTS AT THIS TIME. (2022)

Photos taken of physical products were not necessarily when they were created or copyright dates but were the dates the products were received from the printers/stores and I burnt discs and transferred files to sticks etc ready for distribution.

Some photos were taken on the day of distribution or sale.

CDs/DVDs were labelled with graphic designs by AJ How printed by Office Ideas Melbourne and for the USB sticks I made tags printed with the titles for the topic of the USB file contents including my name in the topic on the tag and placed the sticks in small plastic envelopes with a printed insert menu list of the USB stick contents, basic.

Each stick had products, digital, on the sticks with an introductory letter PDF and other samples where applicable.

I posted CDs/DVDs/USB sticks as much as I could do for a while but this became impossible with physical ailments, restrictions and limited funds.

Most of the products were sent in A5 express post envelopes registered (via AusPost) unless sheet music products were included whereby a larger envelope was required.

Some were delivered in person to people.

I designed and had printed out a business card which was included with these items.

When it became increasingly difficult to provide physical products I set up the website MUSICAL RISE to deliver items as digital products instead.

I took photos also of the postage packages pre sending them and sometimes at the post box that I placed them in or post office etc as a record and for interest sake later.

'LOVE OR FEAR' - CD ALBUM LAUNCHED 1998 SEPTEMBER 2ND AT THE EVELYN HOTEL
DIGITAL RELEASE ONLINE AT THE MUSICAL RISE STORE and via BANDCAMP 2019.

DEEP CD 1998 \$20 Retail, found one receipt (Rec 8 \$20 customer).

I have the receipt book somewhere. Only a few CDs sold (on the night of the Album Launch).

A few were purchased in 1998; not many. Will find that receipt book.

Once again funds received went towards partial cover for related costs.

ALISON JANE HOW & CO ORIGINALS MUSIC
PREPARATIONS, PROMO, PRODUCT DEVELOPMENT, BIZ, WEBSITES, NOTIFS ETC

Below is a summary of some notes in diaries, information remembered and gathered by myself, Alison, of preparations for the originals music creation, development and release.

In relation to promotion, advertising, notifications....

People and organizations I contacted up until 2022 have been included in this document in general and another list at the end of this document section;

I replied to each and every response with thanks etc.

I did not receive responses from everybody that I contacted.

The products have been developed since their composition, some to a greater degree than others.

I have designed and created, published a website in 2019 where most of the music products have been published, made available to view, listen to and to purchase along with other products.

Information about the development of the Musical Rise website is also included in this document. Some business, organizational details, running costs (including band rehearsal studio hire costs etc) are listed amongst the following notes.

Al performed at HELP ENTERPRISES event in Brisbane King George Square
Originals Vocals and Guitar
7 to 7:45am Chair Mic D.I. provided.
Went in on the train.... nearly killed me... much physical pain.
When I arrived at the square my trolley carrying my guitar etc fell to the ground on a
street corner and I had to try to pick up... got there... did the gig.... stayed...
from memory it had rained and the small covering over me had water dripping over the sides...
(equipment hazzard issue) and think it was a very hot day that day... I felt for all who attended....
It appeared to me that quite a few people stopped to listen who were on their
way to work or study etc...
Even though it was early when I sang/played there was an audience... and passers by.
Communications with HELP Enterprises around the time of the performance were via email.
Emails date back to January 2010 early. Some phone convos too I think.
2010 01 21 I wrote an email response to the co-ordinator of the event where I attached
some songs for her to listen to and noted that I would try to write a song especially for
the event over the next few days.. A Chance For Everyone...

A new friend, Orange Jules, sang and played at the event also....

This is a text copy (size/space edited) of where the info about the Event originally came to me.

Help Seeks Performers for The Great Australian Sunny Sizzle

Help Enterprises is a Brisbane based not-for-profit organisation that provides a variety of services to
people who have a disability. Help are teaming up with FSG on the Gold Coast and Interchange in
Victoria to host

'The Great Australian Sunny Sizzle'. The Great Australian Sunny Sizzle started in Melbourne's
Federation Square and now attracts thousands of people. 2010 will be the second year the Sunny Sizzle
has been hosted in Brisbane. The aim of the day is to promote awareness and inclusion for people who
have a disability.

Help is seeking bands or solo artists to donate their time as entertainment for the event.

Any assistance will be hugely appreciated.

Letter to Danny Goldberg via letter to Gold Village Entertainment.
Danny had been at an event in Qld that I attended... an APRA event...
The letter noted that I had attended an APRA seminar Wednesday 9th September 2010.
Requested would it be alright for me to post CDs, bio etc to you for consideration by Danny or your team...
Gave them my address, phone number etc in the email...

2010 10 15

I wrote a letter to the Queen (Queen Elizabeth II) and included a CD and lyrics of some songs, one of which I wrote for and about Her Majesty, 'THANK YOU YOUR MAJESTY'.
I also included my songs 'CHRISTMAS' & 'WHEN JESUS WAS BORN'.
My Auntie had told me that you can write to the Queen. At the time it was acceptable to send something with a letter.
Letter with items sent via registered post, Auspost.

2010 11 11

Andy Sorenson (Translator Records) replied to my email about giving him a share in the royalties for the song TIME as he was involved on the initial recording of the song...
He had made some suggestions at the time while I was recording the vocal.
Being Andy, he replied not necessary unless I made 100 million bucks then I could send him a million.
Said feel free to credit or not...

2010 11 29

Letter dated as above from The Queen (Queen Elizabeth II).

I received a letter back from Buckingham Palace from Her Majesty The Queen
from her lady-in-waiting on behalf of The Queen thanking me etc for the letter and items.

I had posted the package to The Queen the day it was completed.

(Audio mp3s 'Thank You Your Majesty', 'Christmas', 'When Jesus Was Born',

Lyrics chart for 'Thank You Your Majesty' and a letter addressed to the Queen from myself)

2010 12 31

ROYALTIES

Only royalties ever received from APRA regarding songs....

I don't know which version was played or where but notification/sheet from APRA says

FIGHTER Radio \$20.50

at that stage says I was 100% full writer. (This was DEEP audio recording of the song)

The royalty statement is dated 2011 05 03 (03/05/2011)

2010 07 11, I emailed Glenn about percentages ... I had discussed this with Peter also..

I would have paid anyone their agreed part.... communication hasn't been specific over time...

though I tried... in writing on the phone etc... I guess one reason nobody fussed about it
was nothing was coming in really financially and I was covering costs...

2010 and 2011 I sent out various CDs demos to many people organizations etc..

as promo and gifts... originals... and with requests for consideration of material etc..

(dates listed in this document)

Contacted 96five Family Radio (Brisbane's Christian Community Radio - Family Radio Limited)
via email -

something to the effect of - do you have room in your programs to play local
musician/songwriters works?

You can check some of my music out at myspace.com/alijanesolo

and numberonemusic.com/alisonjane

thanks etc...

I later visited the Radio station after a Dental appointment

(with unexpected gums bleeding 'n' all and put all effort into getting up the stairs inside to go
to the control room... in Alderley Qld; nevertheless, was honoured to be allowed to visit directly.)

I gave them a CD of a number of my originals' mp3s that day.

(the name 'Musical Rise' stemmed from one of the last times pre 2011 that I had worked on my
originals with a musician, on a street named Pinnacle Rise, in 2006;

that name sounded big and it occurred to me that 'Musical Rise' would be a great name to
umbrella all my originals music and that of the co-writes - less soloistic/self oriented approach.)

I contacted Geeks2U and I think that's where I found a tech who had to do the PC again...

from scratch ... think I lost a lot of or all contents that time... no EHDs! Odd that he couldn't retrieve the files etc as another tech in Melbourne did the next time it happened in Melbourne in 2007.

And in Melbourne same in 2011... different set ups...

I wonder how many people have secret backups of all the material etc??

I had written to the Government about my song 'THANK YOU YOUR MAJESTY' in 2010.
I phoned Julia Gillard's office on the above date.
The person who answered didn't say who they were or where I had called. I emailed.
I received a response via letter from the Australian Government.
Department of the Prime Minister and Cabinet. One National Circuit Barton.
I was thanked for my email 8 April 2011 to the Prime Minister regarding a musical performance for Her Majesty The Queen during her proposed visit to Australia in October, 2011.
Basically the response was that should there prove to be an appropriate opportunity, my name would be considered, along with a range of other suitable and talented performers, for ultimate decision by the government.... thanked for my interest in the matter.... etc
Response was on behalf of the Prime Minister from Assistant Secretary, Ceremonial and Hospitality branch.

STUDIO 52 ONLINE EMAIL ali_jane@live.com left on site
(basic message)
4th JULY 2011

Hi there at Studio 52. I was wanting to send an email to Paul Higgins and Trevor Carter for consideration for either session vocals/instrumental on recordings and or consideration for production on some of my 140+ originals. I am currently looking for a line up.
The songs range from ballads, rock, pop, dance, country, folk, classical, rap, alternative etc. Some are quite difficult. If you have any ideas I would appreciate your advice.
I could email mp3 montage of originals/covers selections and bio for your perusal.
Thankyou sincerely, kind Regards, Alison Jane How, Bachelor of Music Education

Looking into Musical Rise net website applications for developing the website..

I chose Wordpress to commence the website design etc...

I had tried some other options such as PrestaShop and settled with Wordpres and eventually added the plugin Easy Digital Downloads, then Elementor Page Builder and other options.

This was a lengthy process as I had never done anything like this before.

CPanel was new to me but I got around it's basics and intricacies, reading more than I can handle to get a grip on an overall picture and inner details, to try to construct the website in a way that would be user friendly, attractive, professional and secure especially for payment of products.

I had learned a lot about graphics whilst doing a project for a friend and that was a good prelude, developmental resource for contributing towards the website's professional construction. I had tagged mp3s before, so I was familiar with that process, but did a lot more work on the graphics side of matters than previously done.

I also was preparing Digital Sheet Music products, exporting songs as PDFs, MIDI and Audio formats which required more learning, putting findings into practise and interaction with other software in order to become proficient at the process and results.

I worked on the website construction for a while prior to contacting people with a URL so that they could access the website but I pre-notified friends, family and colleagues of it's pending publishing.

Musical Rise net website development - I maintained wordpad documents called MR SET UP with a date for every day of the workings of the website etc from commencement 2019 through to 2022, current year.

2019 05 29

The above date and throughout June 2019

Set up cPanel via host for musicalrise.net, design website.

Check all 85 songs' products to go on website prior to uploads.

(mp3s/MIDI files/Pdfs etc. - Digital sales)

Contact Paypal for any extra requirements to add to account with this website's product sales.

Close any other accounts previously associated with this domain name or potential website development etc. Upload products to Website.

Test Website desktop and mobile/tablet sites prior to publishing it.

Publish website. Tell a few tech friends to check it out first to see if I missed anything/could improve anything. Backup website. Backup files.

Register/pay for domain name's main name as a business name and other related.

Store business details and all files and correspondence associated with this domain name/website/setups and financial information etc.

Notify over 200 people that the website is up and running and products may be viewed/listened to/purchased. Provide email names and domain name for customers.

Most days and nights I worked on the material and the site more than 8 hours a day....

Sometimes into early hours of the morning.

Musical Rise net - I commenced setting up multiple email accounts.
I set up the website with great detail looking ahead to the potential involvement of a large team working on it in the future if the need or option arose.

2019 06 04

Registration application in for business name MUSICAL RISE, previously under another business name of Alison's. Business name was registered with ASIC on this date.
Received confirmation. Still registered to 2022... and beyond...

2019 06 13

From here many files were uploaded to the Musical Rise net website by myself..
I was developing the design of the website and incorporating use of the Easy Digital Downloads plugin so that the products could be downloaded and purchased through the store section of the website with PayPal login or as a guest integrated as the Payment Gateway.
During this time I am using files and graphics that I created previously and creating new ones.

DEEP audio uploaded to the Bandcamp website.

2019 06 14

Commenced working on the Musical Rise Website in relation to the plugin Elementor Page Builder..... trying to create the home page and get to know the program...
Used in conjunction with Wordpress...cPanel workings developed simultaneously.

2019 06 15

Working on the creation of the Musical Rise website - Designing incorporating graphics, researching and adding plugins to the site, checking the site health and locking in security features.

2019 06 16

Set up PayPal settings for the Musical Rise website.
Tested a Product Download purchase for PayPal gateway accuracy etc test and obtaining product at confirmation screen and email address invoice/receipt and links.
At first I developed the Easy Digital Downloads plugin usage as a store front but decided to design my own website and store but still use EDD as the method of setting up Product Download pages for products going to cart and delivered, with purchase shortcodes and edited those product download pages in Elementor Page Builder to use my own designs.
There were some conflicts that needed resolving on the way through website development and some things that were updated had to be backdated with complications but it has landed in 2022 as quite the site; better than I ever expected I would have the opportunity, resources and methods coupled with patience to achieve.

Backed up cPanel even though the site is in early creation stages.

2019 06 17

Notified Mr Dyall of Dorothy and my words and music being published to the Musical Rise website.

2019 06 19

onward

MUSICALRISE.NET Set up continued.

85 plus songs audio for sale uploaded ready to detail and place in the online store.

Upload 18 songs' digital sheet music as ebooks (PDF), MIDI and audio files as retail items.

The rest of the 85 songs' digital sheet music is in progress and will also be added to the site.

There are another, at least, 40 songs after these 85 that could be recorded, sold as audio and digital sheet music.

Promote heavily the site once published to other musicians/artists in order that they might consider performing/recording/releasing the songs themselves and continue to offer the songs to publishing companies, record labels etc.

Create all necessary files for the site including legals, terms and condits, payment gateway setups, theme design continue.

Continue placement and details of over 100 files uploaded to the site so far.

Check all details are correct.

Contact all co writers seeking bio info and permissions to include their co works and details on the website.

Check all cPanel settings. SSL is set but check again.

Communicate with companies about the design template which has a glitch.

Communicate with Paypal about current set up being correct.

Name has been registered as a business name etc.

Order files in folder and keep records of workings whilst developing the website.

Provide co writers with an update and copies of files which include information about them prior to publishing the website.

Communicate with Hosting company where necessary, querying ongoing events/tasks.

Upload more files for the online store inclusion.

Create artwork to send out and publish on the site.

Organize the pages and subpages for the website including within the Store.

Once privately published to a greater degree, contact a co writer who is a tech and request he check over the site for any final edits/amendments/issues. (never happened)

Check site health in Wordpress site and rectify issues where necessary.

After published the site, contact over 200 people to notify them of it's publishing and contents/store.

One taken down when one person who was involved with the musical backing team who played, recorded the backing onto a tape for me to sing and play piano along with on a TV program years prior, objected to the publishing of the content....

the other cover song published for a year with licence and ask from the writers' management etc...

One song was 'You Light Up My Life' (Brooks)

Alison singing on Young Talent Time when she was 15 in 1983...

the other song an audio recording of 'Amigos Para Siempre' (Lloyd Webber/Black) with Alison and James Corona (Smith) singing and Alison musical backing track.

Although 'Amigos' was available to purchase in full only an excerpt was published; under 30 seconds.

The track wasn't purchased by anyone and although discount codes for full cost of product retrieval to the writers of the song were supplied they weren't obtained via that method either.

The products were viewed and listened to in excerpt formats though on the website.

2021 01 16

Contacted via online form and more, Andrew Lloyd Webber (Really Useful Group) regarding release and product sale permission for his and Don Black's song "Amigos Para Siempre". This permission was granted as the company noted that I had followed through with the correct procedure by paying a fee via AMCOS/APRA.

I was thanked for notifying the company and seeking permission.

The song's mp3 audio was made available to purchase via the Musical Rise website for one year. An excerpt of the song was provided for consideration to purchase the mp3. There were no sales.

I also directed Lord Lloyd Webber to the Musical Rise website.

2022 05 16

Musical Rise Website - Originals' Timeline file commenced to add to the Memorabilia files Product Download page or one of it's own. This date until the end of the month working on this file. Having collected much information and files to hard drives, including cassette tape recordings of originals throughout the years from around 1988 onwards to 2022 this has been a huge task.

Listening back to all the cassette tapes recorded music as mp3s now on the hard drives and adding any relevant info about the recordings and originals' songwriting development and whether by myself or with co writers to this Originals' Timeline file.

I had scanned and photographed diaries from 1984 through to 2011 then extra diary info to 2022. Using this information from the diaries as extra info about rehearsals, recordings, songwriting, when met people/musicians etc and general goings on at the time of songwriting, performance and recording dates.

2022 05 22

Musical Rise Website - Co writers formal permissions form created to be filled online or PDF in future for ventures, permissions etc. Previously given permissions via phone and in texts and emails etc. This form would be accessed via the private page on the Musical Rise website.

2022 June July

Contacted specific vocalists etc regarding specific originals songs -

Potential perform, record, release of their own renditions. These songs are listed on a Musical Rise website page along with the artists I hope will perform, record, release them.

I published the page and added songs as I contacted those relevant; realizing that the page might be seen and songs heard by the artists and affiliates simultaneously in order for them to consider the music and ventures etc.

Those contacted during this time and prior to this date via authorities etc were related to - Jennifer Lopez, Delta Goodrem, P!NK (Alecia Beth Moore), Alicia Silverstone, Olivia Newton-John & Chloe Lattanzi (edited since regarding Olivia), Jon Batiste, Harry Connick Jnr, Michael Bublé, Lady Gaga, Jon Bon Jovi, Margot Robbie (as Director), Nita Strauss and possible additions since then.

I had written about the songs and potential artist involvement to record labels, reps etc prior to this year.

...Preparations, Promo, Product Development, Biz, Websites, Notifs Etc... (continued)

2022 06 29

Contacted Paul DSquad in relation to potential release, publishing of the songs I recorded vocals on for his project/originals as 'DREAMSQUAD' back around the year 2000.

I requested they be published as retail items with his permission if he thought that was ok. Mack Lancaster composed some of those songs and prepared parts of the instrumental backings/workings for Paul to use for the recordings.

2022 07 14

Letter with message to Ms. Margot Robbie ~ notify of the website and products along with request for directorial consideration for the originals music.

2022 09 23

Paul DSquad replied to my email regarding the inclusion of the DREAMSQUAD songs to the Musical Rise website store online, the songs that I recorded vocals for around the year 2000. These songs he wrote and some we composed by Mack Lancaster.

Paul has given permission for the songs to be published via the site as 'donated' by him. I am further following up with the co writer who co wrote one or 2 of 12 songs that I sang on; recordings titled as DREAMSQUAD. (in the final decision 3 songs were dropped and only 9 songs 'DREAMSQUAD' published to the site; compositions of Paul DSquad and Mack Lancaster.

2022 09 25 to 2022 10 23

I commenced the DREAMSQUAD pages on the website in preparation for 12 songs being published to that page with product download pages included.

Awaiting approval from one of the co-writers; otherwise that song or 2 songs might be excluded from the publishing and only 10 songs published. (eventually only 9 songs published).

Paul wrote most of the songs, with 3 composed by Mack Lancaster; Paul now owns the rights to Mack's songs. I met Mack back around the year 2000.

Over the next few days in September I continued communications and preparation for this material to be uploaded to the site and made available for listening and purchasing; a great inclusion from my point of view. I really enjoyed listening to them again, having recorded the, over 2 decades ago.

The songs were fun, interesting and a tad quirky from a tech perspective.

Paul has been a splendid colleague throughout the years, inspiring much of what has been possible for me to consider attempting, especially when it comes to the tech side of things. The page should be published in October 2022 all going as hoped. (yes - was)

Between the dates above this section graphics were created for the products and the site. All songs were tagged and checks were continued between Paul and myself pre publishing the songs and the page to the Musical Rise Website.

The name 'MUSICAL RISE' stemmed from one of the last times pre 2011 that I had worked
on my originals with a musician, on a street named Pinnacle Rise, in 2006;
that name sounded big and it occurred to me that 'Musical Rise' would be a great name to
umbrella all my originals music and that of the co-writes - less soloistic/self oriented approach.
musicalrise.com wasn't developed or published public.
In 2019 I set up and published musicalrise.net

CREDITS & THANKS

The potential release of the material by others was also a consideration regarding my physical state which has limited me for a long time; hopefully there will be improvement there so that I can continue on this musical journey writing, performing, recording amongst many ventures with others. I hope this music encourages and inspires many people regarding music and living in general.

In closing, I would like to thank everyone who has been a part of my/our musical journey. Also, I would like to thank those who are listening to and viewing the music, those who sing and play the music, those who are considering doing so and or supporting myself/us and sharing future musical ventures, experiences, creation, collaborations and so on we all go.

I have thanked and credited individuals and groups throughout the website. May those of you who are on your own musical journey be inspired to keep going at it, covering it from all angles, making it be of worth and worth listening to/viewing/performing/recording etc, sharing it with others and them wanting to be a part of appreciating and sharing it as well.

Hopefully you receive back from what you give; finances being of importance also as this is a huge task and most of us give our all to it and to others throughout the process. In the first few decades of my songwriting, recording, performing journey I was also teaching, leading, performing, studying, learning, travelling and involved with supporting many others with their ventures.

In the last 20 or so years I have been limited somewhat physically and therefore focused more upon this originals music 'round up' task continuing it's journey in whatever ways I could. It is satisfying to know that the originals music is generally all out there in one place now and that it seems to be being accessed by many people from many different countries which gives it a great chance for it's further development and appreciation.

Thank you for your patience if you glanced at or read through all of this document; much appreciated.

A special thank you to my family, in particular Mum and Dad, Joy and Darcey How, who have made it possible for me to explore my interest in and love of music.

They also introduced me to the love of God, a loving relationship with Jesus and nurturing of life within me and through me by the power of The Holy Spirit. This is why you have all received so much more than what I can give alone in my human form which falls far short of perfection and faces challenges regularly.

I also thank the man whom I might share life with in the future, whose potential existence has inspired me to continue on within that hope and dream eventually becoming a reality.

Regards,

Alison
