MOVIES, TV SHOWS, MUSICALS VIEWED/ATTENDED
by ALISON JANE HOW (1968 - 2022) 2/37

**THIS DOCUMENT PUBLISHED AS A SECURED PDF
ON THE MUSICAL RISE WEBSITE
2022 MAY BY ALISON JANE HOW
<https://www.musicalrise.net/>**

A second PDF also published via the Musical Rise Website April 2022 includes details of the events I attended and or performed at throughout the years.

Thank you for your interest in my interests which include people, their crafts, hobbies, interests and talents/sharing in general.

Poppy Wiseman used to call me "square eyes" because I watched lots of TV. These days most of the movie formats and screens are "rectangular"... so... if he were here now he would probably call me "squaretangular eyes". I still enjoy watching TV on a square shape Panasonic TV obtained during the 90s; the sound and picture are awesome and some DVD/VHS formats are in fullscreen PAL TV format; better in my opinion.

My first experiences of watching TV were on a black and white television and apparently the reception cut in and out. (Smithton, Tasmania 1968-1973). Melbourne (1974-2007) Queensland (2007-2011) Melbourne (2011-2022)

Listed here in this document are Movies, TV Programs, Shows, Musicals that I have viewed or attended screenings/performances of from 1968 to 2022. I still possess the tickets for many of those events; info represented in this document. Some tickets were paid for by family or friends; I paid for some of their's too.

I enjoyed sharing with others and being on my own seeing tv shows, movies and musicals in amongst and during hours of work, performing, teaching, studying, assisting, other events attending/participating in, homework, music practise etc, leading groups, helping and spending time with friends and family; all of which included much travel and outdoors ventures etc. Some of the following movies/shows were seen during illness, injuries and attempted recoveries... an on going process still to today...

I have been amazed at the work of others that goes into events/productions and so on; especially the combined efforts of many cultures/age brackets/socio-economic backgrounds/belief systems/Faith etc, individuals working together as one towards a whole final completed product/event.

The most amazing fact; these recordings and events have been captured permanently, in an Earthly sense, on videos, DVDs, the Internet, on film, in pictures etc.

As a result, we are able to appreciate and watch/listen to, (over and over and most of the time, at any time), these recordings which include fact/fiction, a person's existence and often life's work. Fiction or nonfiction; a miracle and a privilege.

All this has contributed to my growth, development and general view/expression; including from a musical perspective.

I have in turn supported many by viewing, purchasing, spreading the word about and donating to these products/events.

I also have listened to the Director's/others' commentaries plus interviews, bloopers etc, read extra info on DVDs; fascinating information and insight.

Thank you to all those people who contributed to these movies, tv programs, shows and musicals and those who captured, broadcast and distributed them.
